<sup>A</sup> Not applicable.

<sup>B</sup> Not available.

<sup>C</sup> The previous year's secured tax rate is used for current year tax bills on the unsecured tax roll (Revenue and Tax Code §2905).

<sup>D</sup> Refunding is governmental terminology for "refinancing". Refinancing typically reduces the taxpayers' overall debt service requirement.

<sup>E</sup> The actual tax rate levied in any given year may exceed the good faith estimate that is made at the time of the election regarding the maximum tax rate anticipated.
