SPECIAL ORDERS

PLANNING MATTERS

285-3489
Upon being petitioned by 19 residents of the area, the Board considered whether to reconsider its action of May 19, 1981, rezoning lands in the Placerville Periphery area from Agricultural Zone to Estate Residential Five-Acre Zone, consisting of 12.34 acres, petitioned by Dayle Wellbrock.

Mr. Robert Deal and Ms. Janice Condit were present and spoke on behalf of the area residents, again citing concerns of increased traffic on Newtown Road, loss of prime agricultural lands, and the current development of the Placerville Periphery Area Land Use Plan.

Mr. Bud Land, representing Mr. Wellbrock, was present to speak on behalf of same.

Ms. Jere Bruin, representing Planning for Rural and Industrial Development and Economy in El Dorado County (P.R.I.D.E.), was present and stated P.R.I.D.E. believes decisions of the Board must be deemed credible, and public disapproval should not be grounds for reconsideration. Ms. Bruin stated that reconsideration, in matters like this, are costly to the County and the private developer; and, once the Board makes an intelligent and judicial decision, notwithstanding submittal of new evidence, the private citizen should be able to go on about his business based on that decision.

Mr. Wellbrock was also present to reaffirm the thoughts expressed by Ms. Bruin.

A motion of Supervisor Lowe, to not reconsider the matter due to the lack of new substantial evidence, died for lack of a second.

A motion of Supervisor Dorr, to reconsider based upon the fact there has been no public input on the Placerville Periphery Area Land Use Plan, died for lack of a second.

A motion of Supervisor Dorr, seconded by Supervisor Flynn, to table the request, did not carry by the following vote: Aye: Supervisor Dorr; Noes: Supervisors Lowe, Walker, Stewart, and Flynn.

Supervisor Lowe moved to refer this matter to the Planning Commission for its comments, i.e., to make sure it was aware of the consequences of its action, based on the fact there seems to be some confusion on the evidence submitted at the Planning level, including the question of timing which also arose at the Board level. The motion died for lack of a second.

Furtwangler, based on the following findings:

1. Leroy Road is an existing road with an existing underground water line and is a hardship not created by the developer;
2. Strict application of the design standards would require extensive grading activities and a deviation from desirable access ways to the lots;
