Safety – Protecting the health of people and animals through comprehensive education, enforcement, and testing programs.

Direct Service – Conducting outreach, clinical services, and other interventions aimed at promoting individual and family health and wellness, particularly for at-risk, underserved, and uninsured populations.

Program Summaries

Fund Type 10 – General Fund

Animal Services
Positions: 21.00 FTE
Total Revenues: \$1,143,433
Extra Help: \$12,240
Overtime: \$22,500
Total Revenues: \$1,143,433
Net County Cost: \$1,258,732
Furlough Value: \$29,381

For both the Western Slope and South Lake Tahoe areas of the County, Animal Services provides the mandated services of rabies control, sheltering stray animals, veterinary treatment for sick or injured animals, dog licensing, and enforcement of State and local animal laws. Animal Services also removes dead animals from County roads per an MOU with DOT.

Extra Help funding is for a part-time Veterinarian. The Department is required to have a Veterinarian on their DEA permit for the purchase of controlled drugs for euthanasia, as well as various other vaccines and medications. Additionally, Animal Services is required to provide veterinary care to animals brought into the shelter. Availability of the Veterinarian to examine some sick and injured animals, and to provide veterinary oversight of other animals at the shelter, ensures compliance with State mandates and reduces the amount spent at private veterinary clinics. Animal Services is also mandated to provide rabies control services; having the Veterinarian enables rabies clinics to be offered at the shelter. Revenues in these programs come from licensing, fees for services, court fines, contract payments from the City of Placerville and City of South Lake Tahoe, transfers per the MOU with DOT, and Sales Tax Realignment.

Staffing Trend

Staffing for the Public Health Division has decreased over the last three years due to funding constraints. The Division's year average staffing level is 135. The proposed staff FY allocation for 2009-10 is 103.75 **FTEs** (which is significantly below the Division's ten year

average of 135 FTE). This is approximately 23% below the 10 year average. The allocations are split as follows: 82.75 FTEs on the West Slope and 21 FTEs at South Lake Tahoe.

Chief Administrative Office Comments

The Proposed Budget for the Public Health Division of the Health Services Department reflects staffing changes made during FY 2008-09 and maintains all other on-going adjustments identified at mid-year 2008-09.

The total FY 2009-10 Proposed Budget for Public Health is \$45,749,727 with a Net County Cost of \$1,258,732 for Animal Services and a General Fund contribution of \$4,031,013 (see detail in Source of Funds section above).

Other key funding sources for the Division include assessments and taxes in the CSA 3 and CSA 7 programs, charges for services (primarily ambulance services), and state and federal revenues for public health programs. The Division also relies upon realignment revenues to fund programs that are not fully funded by state and federal revenues, grants and/or fees for services, including the County Medical Services Program (CMSP). Realignment revenues have dropped considerably in the last year. FY 2009-10 estimated realignment revenues are approximately \$6.7 million compared to \$7.7 million in the adopted FY 2008-09 budget. This represents a 12.8% reduction in the Department's overall realignment funds. These funds are used for CMSP (\$3.5 million) and other health programs (\$3.1 million). The net reduction to other health programs after the CMSP program is funded is 23.4%. Decreasing realignment revenues create a significant challenge for the Division to maintain other core Public Health programs.

The Department has developed a multi-year forecasting tool for use by the West Slope JPA and Cal-Tahoe that will allow the CSAs and the County to work collaboratively in establishing and maintaining annual balanced budgets. Property tax and special assessment revenues that are flat or declining require that the CSAs either reduce expenditures to remain within available revenues or use fund balance to offset costs. The forecasting tool will enable the JPAs to

incorporate assumptions about revenues and expenditures to clearly show the amount of fund balance required each year and when that available fund balance would be depleted.

The Health Services Department is requesting the addition of one IT Department Coordinator (0.15 FTE in Public Health and 0.85 FTE in Mental Health) to be offset by the deletion of vacant part time allocations for a Program Assistant, Sr. Fiscal Assistant and Medical Records Technician. Under the Direction of the Department's Chief Financial Officer, the IT position will be responsible for the continued development, implementation and support of the Department's new cost accounting system.

The Department will be challenged this fiscal year to meet increasing demands for services and comply with numerous program mandates within significantly reduced funding for those programs. Other challenges include lack of timely funding contracts from the State and delays in payment from State funding sources resulting in cash flow issues within the various program funds. The Department will continue to focus on core public health responsibilities and ensure that the cost costs for administrative and program areas remain within available resources.
