

The loss of a home and property due to a fire is devastating and can elevate physical, emotional and even spiritual stress levels.

Extreme caution should be taken when returning to a burned home even after the site has been deemed safe by local authorities.

California Southern Baptist Disaster Relief Ministries offers residential home owners assistance with personal property recovery.

Caring and trained volunteer teams spend up to three hours safely assisting with the recovery of valuable personal items that may not have burned completely.

Contact California Southern Baptist Disaster Relief to check if this free service is available in your area.
