**El Dorado County, Federal Highway Administration -
Central Federal Lands Highway Division, and
Martin Brothers Construction to Perform Road Work
Ice House Road Phase 2 Rehabilitation Project
May 2024 through November 2024**

May 20, 2024

The El Dorado County Department of Transportation, in conjunction with the Federal Highway Administration - Central Federal Lands Highway Division and Martin Brothers Construction, will be performing road work on Ice House Road between the intersection of Peavine Ridge Road to the junction of Wentworth Springs Road in the El Dorado National Forest, beginning in May 2024 and continuing through November 2024.

Throughout the month of May, Martin Brothers Construction will be working on the north end of the project and progressing south towards Peavine Ridge Road. Martin Brothers will be working on storm drains which consist of the following: culvert cleaning and repairs, ditch reconditioning, and sawcutting of asphalt. These operations are considered mobile operations and will be actively moving along Ice House Road throughout the day. Roadway improvements, including grinding and paving of Ice House Road and installation of metal beam guardrails and bridge rails, are anticipated to occur beginning in mid-June.

At this time, no heavy traffic impacts are anticipated to occur during the month of May. Traffic control is being implemented with each crew on site. Please consider the safety of yourself and others by slowing down when you see traffic control, or a vehicle pulled over on the shoulder.

The County sincerely appreciates the cooperation and patience of motorists that use these roadway facilities.

For questions regarding construction, please contact Martin Brothers' Project Engineer Jonathan Tafoya at (916) 753-2628.
