Subject: Opposition to CUP19-0012 AT&T slate

To: <planning@edcgov.us>

The people of eldorado, CA are officially opposing the AT&T cell tower being proposed. Attached is info for almost all the residents in the immediate area surrounding the proposed tower. We have many more signatures, they are just not able to be obtained from the person that is going door to door to get them at this time. However, we will be at the meeting on Monday with all the signatures available.

In short, there is a massive amount of opposition for this project so we hope you hear our voices and make the right choice by denying a tower to be built in our backyards. There are better places for it to be. Thank you!
