Subject: COC20-0001/Green Valley Community Church

To: planning@edcgov.us <planning@edcgov.us>

We are against the proposed Homeless shelter. This is a family oriented neighborhood with children and senior's. Most of us take walks and we would feel uneasy and fearful for our safety. The Church has never lived up to promises made. They racked us over the coals about the sewer project that was taken over by EID to the tune of \$7500.00 that most all residents had to pay. As part of the deal they said that they would put a Park in place of water treatment plant. That all of our neighbors would have access to (Never Happened). Not to mention all of the Cars that use the church parking lot for midnight burnouts. We have also noticed an increase in garbage on our street. We have no problem with the function on a daily basis. We see that you have a need to move the homeless out of town. But how fare is that to Our residential neighborhood . Not to mention that Indian Creek School is just down the street, children walk to school right on Missouri Flat road , how safe would feel for your children walking in front of the homeless shelter with drug needles laying in the street? We feel this would certainly decrease the value of community and personal property. Is the church going to provide 24 hour security? Thank you consideration in this matter. Scott
