Executive Summary

Capital Improvement Program Overview

Purpose

The El Dorado County Community Development Agency (CDA) engages in a number of activities to assess and plan for the short and long term needs of the community. The Capital Improvement Program (CIP) represents the CDA's strategy for infrastructure development and maintenance. The CIP is a planning document that identifies capital projects and provides a schedule and funding options. It provides a means for the El Dorado County Board of Supervisors (Board) to determine capital priorities.

Key criteria used for project consideration and prioritization include: health and safety, project costs and funding, community support, consistency with the General Plan, and ongoing maintenance costs. Potential new projects are reviewed by CDA staff and presented to the Board for discussion and inclusion in the CIP. The CIP is a planning tool that the CDA updates annually as new information becomes available regarding priorities, funding sources, project cost estimates and schedule.

The CDA's goals for the CIP are to:

- Maintain and upgrade existing infrastructure to support existing residences and businesses.
- Develop new capital projects to help meet the highest priority community growth needs.
- Align capital budgets with adopted policies and plans.
- Link the County's development and fiscal planning processes.
- Broaden public participation in the budget process by providing documentation and scheduling hearings early in the process.
- Increase coordination between internal departments and public agencies.

CIP Overview

The CIP serves as a planning and implementation tool for the development, construction, rehabilitation and maintenance of the County's transportation infrastructure. Capital improvements are projects that provide tangible long-term improvements or additions of a fixed or permanent nature, have value and can be depreciated. The CIP process includes identifying, prioritizing and developing funding for needed projects. The CIP includes ongoing projects started in previous years and new projects starting in the current and future fiscal years.

The CIP is constrained by limited available funding sources that have specific restrictions on how they can be used. Currently, the County's infrastructure needs in the twenty-year time frame exceed available resources, which results in competing priorities for limited funds. In order to resolve this issue, the CDA uses outside funding sources (Federal, State and other grants) whenever possible, in addition to County funds (e.g., Traffic Impact Mitigation (TIM) Fees, General Fund).

The CIP makes up over 40% of the total CDA budget, and over half of the Transportation Division's budget. The CDA coordinates the development of the capital budget with the

development of the operating budget, so that future operating costs are projected in alignment with the capital infrastructure.

Major Update to the West Slope CIP and TIM Fee Program

In order to ensure that growth in the County, consistent with the General Plan, work does not exceed available roadway capacity, the County is required to implement General Plan Policy TC-Xb and Implementation Measures TC-A and TC-B. This policy and measures require major updates to the West Slope CIP at least every five years, in coordination with the five-year major review of the General Plan. The five-year CIP update specifies expenditures for roadway improvements within a twenty-year horizon.

The 2016 CIP Book is a result of the major five-year update to the West Slope CIP and TIM Fee program, and supersedes the 2016 Interim CIP Book. Whereas the CIP is the planning, prioritization, scheduling and construction mechanism, the TIM Fee program is one of the funding mechanisms for getting CIP projects needed, as a result of growth, built within the County.

The TIM Fees are based on projected development consistent with the County's adopted General Plan and the total cost of transportation improvements needed to accommodate this growth. This information allows a nexus between the unfunded improvement costs and projected future development. The nexus study results in a calculation that determines the fair share for transportation improvements that future development must pay based on the type of land use development (i.e., residential and/or non-residential uses). The current nexus analysis, performed in Fiscal Year (FY) 2015/16, was based on the incremental land use growth projected to occur in the County between January 1, 2015 and December 31, 2035.

This information, based on General Plan policies, was used to identify existing and future deficiencies in the transportation network and the types of projects and costs that would be required to mitigate them. This 2016 CIP incorporates the required projects that were identified during this analysis, including estimated cost, schedule and revenue sources. The CIP includes TIM Fee funded projects, as well as improvements without any TIM Fee funding.

CIP Format

The 2016 CIP Book includes five capital programs:

- ❖ West Slope Road/Bridge (CIP)
- ❖ Tahoe Environmental Improvement Program (EIP)
- ❖ Airport Capital Improvement Program (AICP)
- ❖ Transportation Facilities Improvement Program (TFIP)
- ❖ Capital Overlay and Rehabilitation Program (CORP)

The CDA maintains an interactive map depicting the location of projects in each capital program, located at <http://gem.edcgov.us/cip/>.

CIP Annual Updating Process

All Transportation programs are reviewed and updated annually, including revenue estimates, project scopes, costs and schedules. Proposed changes to the CIP are usually finalized upon Board adoption in June. The CIP current work plan is developed concurrently with the CDA budget for the upcoming fiscal year. The CIP/Budget cycle is shown in Figure 1-1.

Figure 1-1: Typical CIP/Budget Cycle

The Airport CIP and the Tahoe EIP have additional review requirements which are tied to their specific funding sources. The Airport CIP is tied directly to the FAA’s (Federal Aviation Administration) annual grant cycle and the Tahoe EIP is tied directly to TRPA’s (Tahoe Regional Planning Agency) annual planning cycle.

The following tables list projects in the Current Year work plan:

- Table 1-1: projects currently in construction or scheduled to begin in FY 2016/17.
- Table 1-2: projects scheduled to be in planning, design, right of way or environmental monitoring phases in FY 2016/17.

Table 1-1: Projects Currently In Construction or Scheduled to Begin in FY 2016/17

Project Type	Project Description		Total Cost (\$M)¹
West Slope Road/Bridge	#77123	Alder Drive at EID Canal – Bridge Replacement	1.59
	#77119	Blair Road at EID Canal – Bridge Replacement	2.12
	#73360	Cold Springs Road Realignment	2.07
	#72375	Diamond Springs Parkway – Phase 1A – SR49 Realignment	14.21

¹ Costs are estimated, and rounded to the nearest hundredth of \$1 million.

Table 1-1: Projects Currently in Construction or Scheduled to Begin in FY 2016/17 (Cont.)

Project Type	Project Description		Total Cost (\$M)¹
West Slope Road/Bridge	#97012	El Dorado Trail – Los Trampas to Halcon	1.18
	#77114	Green Valley Road at Weber Creek – Bridge Replacement	11.59
	#72309	Green Valley Road – Class II Bikeway – Loch Way to Signalized Entrance to Pleasant Grove Middle School	0.37
	#72376	Green Valley Road Widening from County Line to Sophia Parkway	2.11
	77140	Happy Valley Cutoff Road at Camp Creek – Bridge Maintenance Project	0.37
	#77125	Hazel Valley Road at PG&E Canal – Bridge Replacement	3.06
	#72369	Hollow Oak Road Drainage	0.63
	#77131	Ice House Road at Jones Fork Silver Creek Bridge Maintenance Project	1.03
	#72187	Ice House Road Rehabilitation	5.71
	#72308	New York Creek Trail East – Phase 2	1.45
	#73320	Pleasant Valley Road (SR 40)/Patterson Drive Intersection Signalization	4.81
	#73362	Salmon Falls Road South of Glenesk Lane Realignment	1.77
	#72310	Silva Valley Parkway Class 1 and Class 2 Bike Lanes (Harvard to Green Valley Road)	1.94
	#72141	Silva Valley Parkway/Serrano Parkway Traffic Circulation Improvement	0.61
	#77124	Silver Fork at South Fork American River - Bridge - Replacement	2.50
	#77115	Sly Park Road at Clear Creek Crossing – Bridge Replacement	5.84
	#53124	U.S. 50 HOV Lanes Phase 0	17.76
	#71328	U.S. 50/Silva Valley Parkway Interchange – Phase 1	54.15
	#71359	U.S. 50/Missouri Flat Road Interchange – Phase 1B2	2.18
	#71346	U.S. 50/Missouri Flat Road Interchange 1C – Riparian Restoration	1.87
Tahoe EIP	#95157	CSA #5 Erosion Control Project	1.04
	#95179	Meyers Erosion Control Project	2.54
	#95170	Montgomery Estates Area 2 Erosion Control Project	0.94
	#95172	Montgomery Estates Area 3 Erosion Control Project	0.52
	#95192	Sawmill 2B Bike Path and Erosion Control Project	2.89
	#95171	Tahoe Hills Erosion Control Project	0.79

Table 1-1: Projects Currently in Construction or Scheduled to Begin in FY 2016/17 (Cont.)

Airports - Placerville	# 93129	Crack Seal and Remark Runway 5-23, Taxiways, Aprons and Taxilanes - 2015	0.30
CORP	#72188	Black Bart Ave., Barbara Ave. and Martin Ave. Overlay	0.77
	#72119	Gold Hill Overlay	0.54
	#72190	Patterson Drive and Missouri Flat Road Overlay	1.10
TFIP	#81134	Headington Wash Rack Facility Project	1.39

Table 1-2: Projects in Planning, Design or Right of Way Phase in FY 2016/17

Project Type	Project Description		Total Cost (\$M) ¹
West Slope Road/Bridge	#77128	Bassi Road at Granite Creek – Bridge Replacement	4.08
	#77116	Bucks Bar Road at the North Fork Cosumnes River – Bridge Replacement	8.56
	#72143	Cameron Park Drive Widening – Palmer Drive to Hacienda Road	1.32
	#77138	Clear Creek Road at Clear Creek (PM 1.82) – Bridge Replacement	4.36
	#77139	Clear Creek Road at Clear Creek (PM 0.25) – Bridge Replacement	4.43
	# 71360	Country Club Drive Realignment - Bass Lake Road to Tierra de Dios Drive	
	#72334	Diamond Springs Parkway – Phase 1B	28.29
	#72311	El Dorado Hills Blvd Class I Bike Path: Governor Drive to Brittany Place	1.14
	#97015	El Dorado Trail – Missouri Flat Road Bike/Pedestrian Overcrossing	2.81
	#97014	El Dorado Trail – Missouri Flat Road to El Dorado Road	4.15
	#77137	Greenstone Road at Slate Creek – Bridge Replacement	3.64
	#77127	Green Valley Road at Indian Creek – Bridge Replacement	5.57
	#77136	Green Valley Road at Mound Springs Creek – Bridge Replacement	5.60
	#77135	Hanks Exchange at Squaw Hollow Creek – Bridge Replacement	4.10
	#72191	Ice House Road Pavement Rehab, Ph. 2	9.67
	#72312	Merrychase and Country Club Drive - Sidewalks and Class II and Class III Bike Paths	0.90
	#77126	Mosquito Road Bridge at South Fork American River	69.92
	#77129	Mount Murphy Road at South Fork American River – Bridge Replacement	22.86
	#77122	Newtown Road at South Fork of Weber Creek– Bridge Replacement	5.66
#77134	Oak Hill Road at Squaw Hollow Creek – Bridge Replacement	4.09	

Table 1-2: Projects in Planning, Design or Right of Way Phase in FY 2016/17 (Cont.)

West Slope Road/Bridge	#72378	Silva Valley Parkway/Harvard Way Intersection Improvements	0.61
	#76108	Silver Springs Parkway to Bass Lake Road (south segment)	9.45
	#72361	U.S. 50/Cameron Park Drive Interchange Improvements	87.28
	#71319	U.S. 50/Camino Area Safety Project	4.14
	#71333	U.S. 50/Ponderosa Road/South Shingle Rd Interchange Improvements	22.60
	#71368	U.S. 50/Silva Valley Parkway Interchange – Phase 1 Landscape	2.20
	#GP137	White Rock Road Widening (2 to 4 lanes) - Manchester Drive to Sacramento County Line	4.43

	#93503	Obstruction Survey	0.57
	#93528	Update Airport Layout Plan with Program Narrative Report	0.07
	#93534	Update Pavement Maintenance/Management Program	0.04

West Slope Road/Bridge Capital Improvement Program Overview

A Capital Improvement Program (CIP) is a planning document that identifies capital improvement projects (e.g. roads and bridges) a local government or public agency intends to build over a certain time horizon (usually between five and twenty years). CIPs typically provide key information for each project, including delivery schedule, cost and revenue sources. The County's CIP provides a means for the Board to determine capital improvement project and funding priorities over a 20-Year horizon.

In order to maintain the integrity of the County's roadway network, the County is required to implement General Plan Policy TC-Xb and Implementation Measures TC-A and TC-B. These measures require the development of a 5- 10- and 20-Year CIP. These policies also require an update of the twenty-year growth forecast every five years.

The forecast is needed to update the CIP and Traffic Impact Mitigation Fee (TIM) Fee Program. Forecasting growth is an iterative and ongoing process – forecasts are reviewed and adjusted annually as well as every five years. Routinely verifying and updating growth forecasts allows the County to account for new information and adjust its assumptions and plans accordingly.

The 2016 CIP is a result of the five-year Major Update to the West Slope CIP and TIM Fee Program. Figure 1-2 illustrates the five-year Major Update cycle. The 2016 CIP Book supersedes the 2016 Interim CIP Book.

Major Five-Year Update Cycle

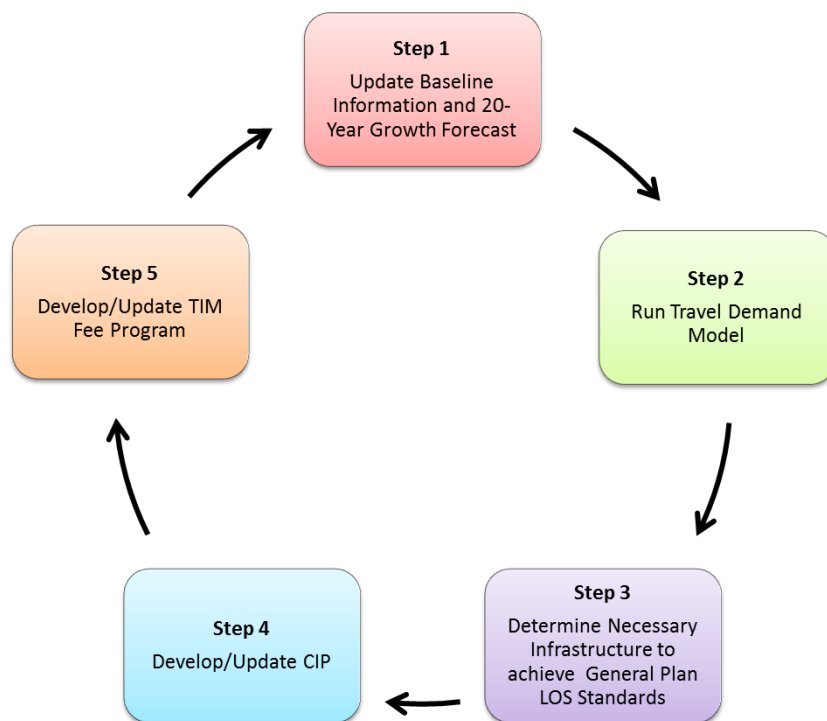

Figure 1-2: Major Five-Year Update Cycle

Figure 1-3 illustrates the typical annual CIP update cycle.

Typical Annual CIP Cycle

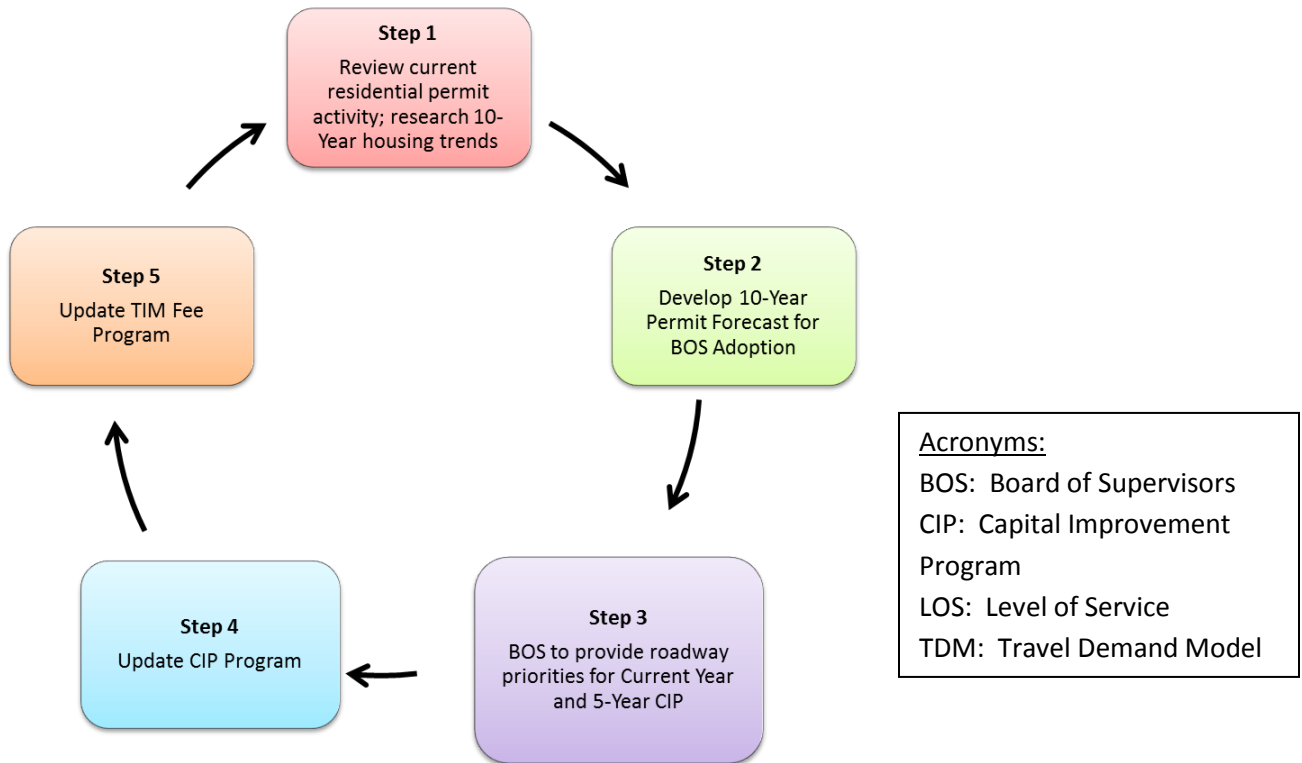

Figure 1-3: Typical Annual Five-Year Update Cycle

Project Prioritization

The CDA uses several criteria to prioritize road improvement projects including:

- **Estimated Construction Start**
 - The first fiscal year the project is planned to be in construction.
 - Projects estimated to start construction in fiscal year (FY) 2016/17 or 2017/18 are more desirable.
- **Supports Economic Development in the County of El Dorado**
 - Projects that would help create connections to pave the way for new commercial development are more desirable.
 - For projects with proposed scopes that don't include construction, the CDA denotes that these projects will support economic development once constructed.
- **Safety Ranking**
 - Projects are rated High, Medium, or Low based on the likelihood that they would improve safety conditions once constructed (High = higher likelihood of the proposed project improving safety).
 - For projects with proposed scopes that don't include construction, the CDA estimates the safety rating once the project is constructed.

- Projects with Medium or High rankings are more desirable.
- **Capacity/Traffic Relief**
 - Average Daily Trip (ADT) traffic counts are reviewed for existing roads to provide a relative sense of how heavily they are used.
 - For proposed new roads, projected ADTs are provided from recent traffic studies.
 - Projects on roads with ADTs around 10,000 or higher are more desirable.
- **Funding/Grant Leveraging**
 - Projects are ranked high, medium, or low based on their ability to attract grant funding (High = higher likelihood of attracting grant funding).
 - Projects with medium or high rankings are more desirable
- **Caltrans Sufficiency Rating (applicable to Bridge projects)**
 - Caltrans' bridge sufficiency ratings are based on a scale of 1-100: bridges with scores between 0 and 50 are eligible for replacement; bridges with scores between 51 and 80 are eligible for rehabilitation; and bridges with scores between 81 and 100 are eligible for maintenance.
 - Bridge projects eligible for rehabilitation or replacement are a higher priority.

In addition to prioritizing projects in or near construction, the CDA prioritizes projects the Board has previously expressed an interest in moving forward. The CDA has continued to pursue potential Federal grants for rural bridge rehabilitation or replacement, which require little or no matching funds. This effort facilitates delivering these bridge projects now, avoiding the need for maintenance or replacement at a future date when grant funding may no longer be available.

Twenty-Year CIP Total Expenditures

The CDA's projected expenditures for the West Slope Road/Bridge Twenty-Year CIP are approximately \$807,837,000, which includes funding from all sources. CIP Revenue sources as of FY 2016/17 are displayed in Figure 1-4.

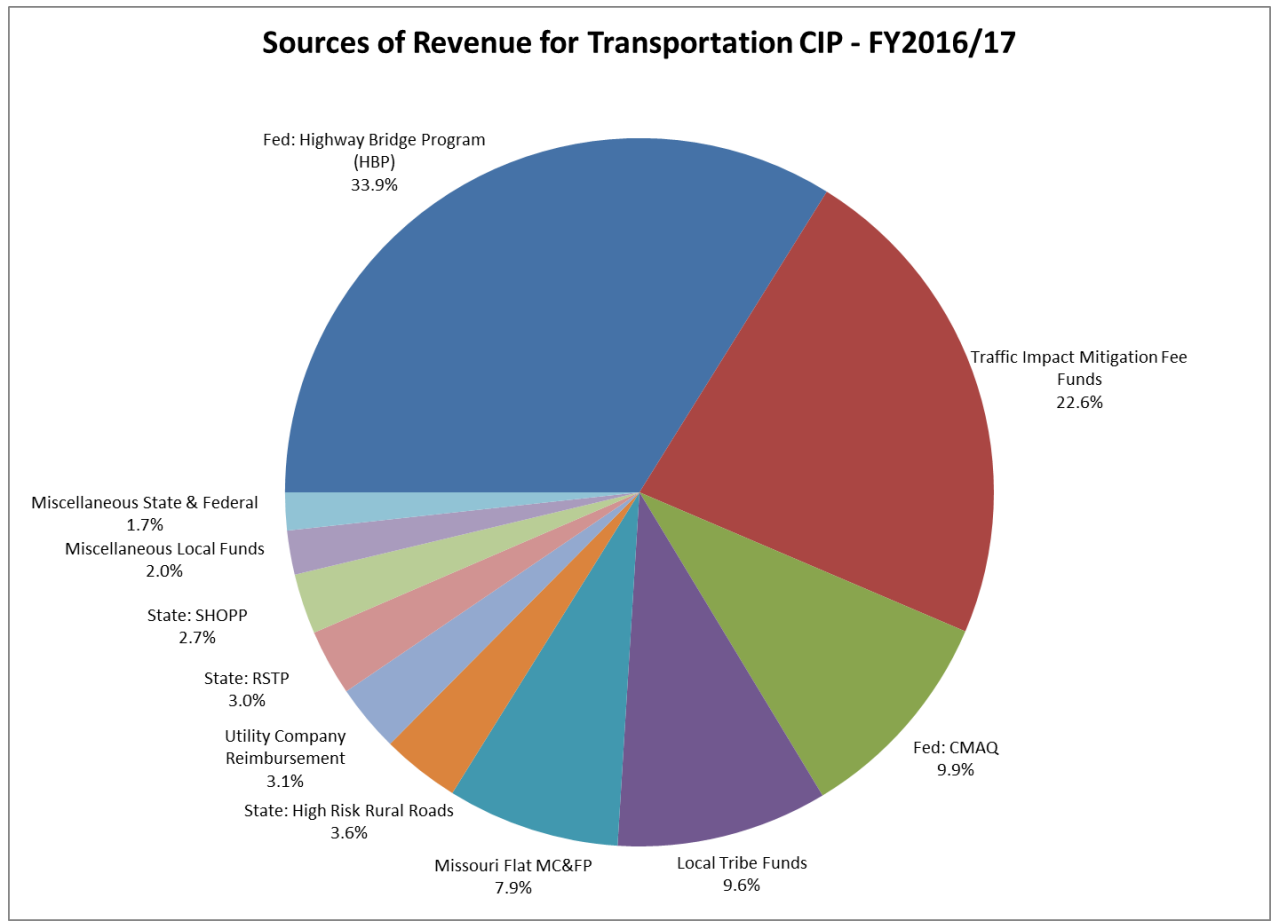

Figure 1-4: Sources of Revenue for Transportation CIP – FY 2016/17

CIP Book Format

Indexes

Indexes in Section 2 provide alternate ways to locate detailed project summaries – alphabetically, by project number, by project schedule and by Supervisor district.

In addition, the CDA maintains an interactive map depicting the location of projects in the West Slope Road/Bridge CIP, located at <http://gem.edcgov.us/cip/>.

Cash Proformas

Section 3 includes cash proformas for the TIM Fee Program, Local Funds – Tribe, the Missouri Flat Corridor Master Circulation and Funding Program, and Regional Surface Transportation Program (RSTP) Match and Exchange Funds. The cash proformas show how funding source revenues are used and what is left in each fund at the end of each year. Pending and approved reimbursements are also noted in this section, as well as a description of revenue sources and their potential uses.

Individual Projects

Individual project summaries are provided in alphabetical order in Section 4 for each project in the CIP. The summaries provide detailed descriptions, location maps, schedule, cost and revenue information. The “Revenues” section of each project summary lists the various funding sources for each project, including TIM Fee funds, State and Federal grants, developer advances, etc. The “Expenditures” section of each project summary includes the various types of costs planned to be incurred for each project (i.e., Planning/Environmental, Design, Right of Way, Construction and Environmental Monitoring.)

The “Project Schedule” section provides an estimate of the funding year each phase is expected to occur. This section is divided into the following phases:

1. **Planning/Environmental:** This phase includes expenditures for “Planning/Env – Staff” and “Planning/Env – Consultant”. Typically the first step in the project delivery process, the Planning/Environmental phase includes all costs related to planning the project, including the preliminary design and research required to complete the environmental analysis. “Planning/Env – Staff” refers to the cost for CDA staff time, while “Planning/Env – Consultant” includes all other costs (e.g., staff time from non-CDA departments, external consultants who specialize in environmental analysis, rental of monitoring equipment, etc.)
2. **Design:** This phase includes expenditures for “Design – Staff” and “Design – Consultant”. The Design phase includes all costs related to developing the project plans, specifications and engineer’s cost estimates to make a project bid-ready. This phase usually begins after the environmental document has been certified by the Board, and can be completed in parallel with the Right of Way acquisition phase. “Design – Staff” refers to the cost for CDA staff time, while “Design – Consultant” includes all other costs (e.g., staff time from non- CDA departments, external consultants, etc.)
3. **Right of Way:** This phase includes expenditures for “Right of Way – Staff”, “Right of Way – Acquisition”, and “Right of Way – Consultant”. The Right of Way phase includes all costs related to determining what property or easements are needed for a CIP project, and acquisition. This phase begins after the environmental document has been certified by the Board, and can be completed in parallel with the Design phase. “Right of Way – Staff” refers to the cost for CDA staff time; “Right of Way – Acquisition” refers to the cost of land; and “Right of Way – Consultant” includes all other costs (e.g., staff time from non- CDA departments, external consultants, etc.)
4. **Construction:** This phase includes expenditures for “Construction Mgmt – Staff”, “Construction Mgmt – Consultant” and “Direct Construction Costs”. This phase includes all costs related to managing, overseeing, and inspecting a project once the project has been bid and awarded to an external firm for construction. “Construction Mgmt – Staff” refers to the cost for Division staff time, while “Construction Mgmt – Consultant” includes all other labor costs (e.g., staff time from non- CDA departments, external consultants, etc.) “Direct Construction Costs” refers to the actual cost to build the project.
5. **Environmental Monitoring:** This phase includes the costs associated with monitoring the environment affected by the project to ensure any impacts are mitigated. The environmental monitoring phase includes expenditures for “Env Monitoring – Staff” and “Env Monitoring – Consultant”. “Env Monitoring – Staff” refers

to the cost for CDA staff time while “Env Monitoring – Consultant” includes all other costs (e.g., staff time from non-CDA departments, external consultants who specialize in environmental analysis, rental of monitoring equipment, etc.)

The project initiation date either coincides with the date of the project engineer's initial estimate or the date of Board adoption of 2004 General Plan TIM Fee Program Resolution 266-2006.

Tahoe Environmental Improvement Program Overview

The Lake Tahoe Basin has long been at the forefront of environmental improvements at Federal, State and Local levels. The Community Development Agency (CDA), Transportation Division's Tahoe Engineering Unit (TEU) is solely grant funded, and is primarily responsible for capital projects identified in the Tahoe Environmental Improvement Program (EIP) to improve the environmental quality of Lake Tahoe. Projects are aimed at implementing improvements in the Lake Tahoe watershed, airshed and the lake itself. The TEU's projects address the EIP threshold categories of Water Quality, Soil Conservation/Stream Environment Zone, Air Quality/Transportation, Fisheries and Recreation. These environmental threshold carrying capacities are defined as environmental standards necessary to maintain significant scenic, recreational, educational, scientific or natural values of the Lake Tahoe Region, or to maintain public health and safety within the region.

As tourism and summer outdoor recreation become more important in the Lake Tahoe Basin, more bike trail projects are appearing in the Tahoe EIP. The TEU's Five-Year EIP includes construction of one to two projects per construction season. The construction season in Tahoe is limited to May 1 through October 15, per regulatory ordinances. Since the TEU's environmental improvement projects are dependent on grant funds, the projects included in this EIP represent the TEU's best project delivery forecast at this time.

Tahoe EIP Annual Updating Process

The EIP program is reviewed and updated annually, including revenue estimates and project costs and schedules. The EIP is developed concurrently with the CDA's budget for the upcoming fiscal year. Figure 1-5 illustrates the annual EIP update cycle.

In the case of the EIP, the needs of granting agencies are reviewed during July through November, and project costs and anticipated revenues are updated. TEU staff identifies the needs of granting agencies, updates the Federal/State/Local grant forecast and revises projects in the Tahoe EIP based on latest cost and grant information. This list is then submitted to the Tahoe Regional Planning Agency (TRPA) for review in December. Project costs, funding sources and delivery priorities are reviewed, updated and presented to the Board of Supervisors (Board) for discussion and adoption in February.

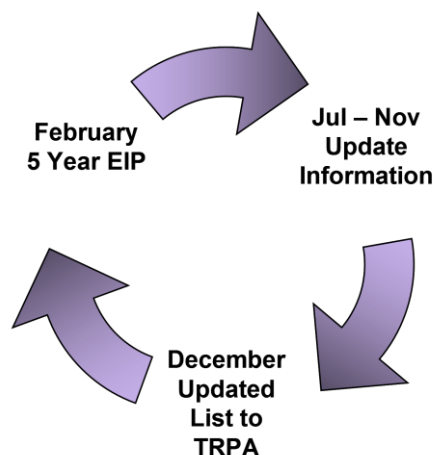

Figure 1-5: Tahoe EIP Annual Updating Process

The CDA maintains an interactive map depicting the location of projects in the Tahoe EIP, located at <http://gem.edcgov.us/cip/>.

Individual Projects - Grouped by Project Type

Individual project summaries are located in Section 4.2, and provide detailed descriptions, schedule, cost and revenue information. Projects are listed in alphabetical order within this section. The “Revenues” section of each project summary lists the various funding sources for each project, and can include many different grants, including California Tahoe Conservancy (CTC), TRPA, U.S. Forest Service (USFS), etc. The “Expenditures” section of each project summary includes the various types of costs expected for each project (i.e., Planning/ Environmental, Design, Right of Way, Construction and Environmental Monitoring).

The “Project Schedule” provides an estimate of the funding year each phase is expected to occur. This section is divided into the following phases:

1. **Planning/Environmental:** This phase includes expenditures for “Planning/Env – Staff” and “Planning/Env – Consultant”. Typically the first step in the project delivery process, the Planning/Environmental phase includes all costs related to planning the project, including the preliminary design and research required to complete the environmental analysis. “Planning/Env – Staff” refers to the cost for CDA staff time, while “Planning/Env – Consultant” includes all other costs (e.g., staff time from non- CDA departments, external consultants who specialize in environmental analysis, rental of monitoring equipment, etc.)
2. **Design:** This phase includes expenditures for “Design – Staff” and “Design – Consultant”. The Design phase includes all costs related to developing the project plans, specifications and engineer’s cost estimates to make a project bid-ready. This phase usually begins after the environmental document has been certified by the Board, and can be completed in parallel with the Right of Way acquisition phase. “Design – Staff” refers to the cost for CDA staff time, while “Design – Consultant” includes all other costs (e.g., staff time from non- CDA departments, external consultants, etc.)
3. **Right of Way:** This phase includes expenditures for “Right of Way – Staff”, “Right of Way – Acquisition”, and “Right of Way – Consultant”. The Right of Way phase includes all costs related to determining what property or easements are needed for a CIP project, and acquisition. This phase begins after the environmental document has been certified by the Board, and can be completed in parallel with the Design phase. “Right of Way – Staff” refers to the cost for CDA staff time; “Right of Way – Acquisition” refers to the cost of land; and “Right of Way – Consultant” includes all other costs (e.g., staff time from non- CDA departments, external consultants, etc.)
4. **Construction:** This phase includes expenditures for “Construction Mgmt – Staff”, “Construction Mgmt – Consultant” and “Direct Construction Costs”. This phase includes all costs related to managing, overseeing, and inspecting a project once the project has been bid and awarded to an external firm for construction. “Construction Mgmt – Staff” refers to the cost for Division staff time, while “Construction Mgmt – Consultant” includes all other labor costs (e.g., staff time from non- CDA departments, external consultants, etc.) “Direct Construction Costs” refers to the actual cost to build the project.

5. **Environmental Monitoring:** This phase includes the costs associated with monitoring the environment affected by the project to ensure impacts are mitigated. This phase includes expenditures for “Env Monitoring – Staff” and “Env Monitoring – Consultant”. “Env Monitoring – Staff” refers to the cost for CDA staff time while “Env Monitoring – Consultant” includes all other costs. “Plant Establishment – Staff” and “Plant Establishment – Consultant”: Typically done at the end of construction, environmental improvement projects include re-establishment of vegetation that may have been removed or damaged during the construction phase. This step includes all costs related to planting, watering and maintaining the new or disturbed vegetation until it becomes established. “Plant Establishment – Staff” refers to the cost for CDA staff time while “Plant Establishment – Consultant” includes all other costs (e.g., staff time from non- CDA departments, external consultants who specialize in environmental analysis, rental of monitoring equipment, etc.)

The project initiation date coincides with the date funding becomes available through the award of grant funds.

Airport Capital Improvement Program Overview

The County Community Development Agency (CDA) is responsible for operating the Placerville and Georgetown Airports, which includes developing and implementing the Airport Capital Improvement Program (ACIP) for both airports. The Federal Aviation Administration (FAA) reviews, authorizes and funds the ACIP. Thus, the ACIP is developed in partnership with the FAA. The FAA funds 90% of most ACIP project costs. A 5-Year ACIP for Georgetown and Placerville Airports was recently completed in cooperation with the FAA, entitling the CDA to pursue FAA grants for projects occurring during 2016-2021. The State has provided matching funds for Airport projects in past years. However, State matching funds have not been programmed in the 2016 ACIP, as these funds have become unreliable. State funding will continue to be pursued.

ACIP projects are prioritized based on several criteria including safety, security, and capacity.

Annual Updating Process

All CIPs are reviewed and updated annually, including revenue estimates, project costs and schedules. In the case of the ACIP, the CDA drafts a proposed list of projects and submits it to the FAA in December for discussion. The FAA reviews the Airport Layout Plan (ALP) for compliance with aviation design standards, and proposes revisions to the ALP and ACIP. The FAA consults with the CDA in project ranking and funding eligibility. The FAA circulates the draft ACIP for potential funding to California Transportation Commission, Federal and State aviation divisions.

In January, the CDA updates the ACIP and submits it to the FAA. The FAA provides direction to staff regarding which projects it will fund, and requests the CDA submit grant applications in March so that projects can be initiated in June/July. Projects may be authorized for planning, design, and/or construction work.

Simultaneously, the CDA presents its CIP recommendations to the Board of Supervisors for discussion and adoption. The budget for next year's potential projects is then updated, based on Federal and state budget constraints. Figure 1-8 illustrates the ACIP Annual Updating Process.

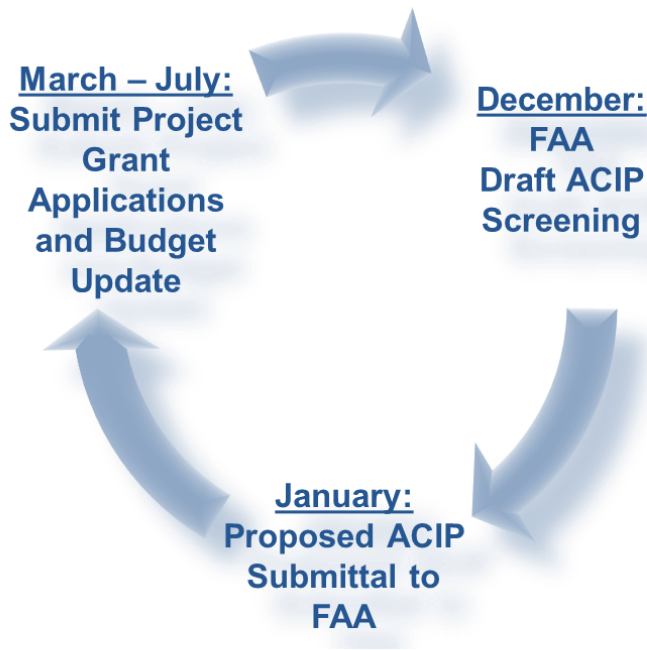

Figure 1-8: ACIP Annual Updating Process

Airport CIP Projects

The CDA is currently working with its airport consultant on an update to the Airport Layout Plan with Program Narrative Report for the Georgetown Airport. The 5-year ACIP for the Placerville Airport recently completed in cooperation with the FAA includes a similar update currently anticipated for Fiscal Year (FY) 2016/17. Each Updated Airport Layout Plan will include updated plans to provide appropriate criteria and guidelines for future airport projects and will generate an updated project list.

The CDA maintains an interactive map depicting the location of projects in the ACIP, located at <http://gem.edcgov.us/cip/>. The CDA proposes to work on several projects in FY 2016/17, subject to FAA grant funding, as shown in Table 1-3.

Table 1-3: 2016 ACIP Projects

Airport	Proposed Const. Year	Description	Total Project Cost (In Thousands)		FAA Grants (In Thousands)		Local Funds (In Thousands)	
			2015 CIP	2016 CIP	2015 CIP	2016 CIP	2015 CIP	2016 CIP
Placerville	2020/21	Airport Layout Plan Update and Obstruction Survey (93132)	\$150,000	\$660,000	\$135,000	\$594,000	\$15,000	\$66,000

		Totals	\$1,609,000	\$2,868,000	\$1,448,000	\$2,579,000	\$161,000	\$289,000

Individual Projects - Grouped by Project Type

Individual project summaries are provided in Section 8.3 for each segment of the ACIP, grouped by airport, and provide detailed descriptions, timing, cost and revenue information. Projects are listed in alphabetical order within each segment of the ACIP. The “Revenues” section of each project summary includes anticipated grants from the FAA along with matching funds from Accumulative Capital Outlay or airport operations (i.e., “Enterprise funds”). The “Expenditures” section of each project summary includes the various types of costs planned to be incurred for each project (i.e., Design and Construction).

The “Project Schedule” section provides an estimate of the funding year each phase is expected to occur. This section is divided into the following phases:

1. **Planning/Environmental:** This phase includes expenditures for “Planning/Env – Staff” and “Planning/Env – Consultant”. Typically the first step in the project delivery process, the Planning/Environmental phase includes all costs related to planning the project, including the preliminary design and research required to complete the environmental analysis. “Planning/Env – Staff” refers to the cost for CDA staff time, while “Planning/Env – Consultant” includes all other costs (e.g., staff time from non-

CDA departments, external consultants who specialize in environmental analysis, rental of monitoring equipment, etc.)

2. **Design:** This phase includes expenditures for “Design – Staff” and “Design – Consultant”. The Design phase includes all costs related to developing the project plans, specifications and engineer’s cost estimates to make a project bid-ready. This phase usually begins after the environmental document has been certified by the Board, and can be completed in parallel with the Right of Way acquisition phase. “Design – Staff” refers to the cost for CDA staff time, while “Design – Consultant” includes all other costs (e.g., staff time from non- CDA departments, external consultants, etc.)
3. **Right of Way:** This phase includes expenditures for “Right of Way – Staff”, “Right of Way – Acquisition”, and “Right of Way – Consultant”. The Right of Way phase includes all costs related to determining what property or easements are needed for a CIP project, and acquisition. This phase begins after the environmental document has been certified by the Board, and can be completed in parallel with the Design phase. “Right of Way – Staff” refers to the cost for CDA staff time; “Right of Way – Acquisition” refers to the cost of land; and “Right of Way – Consultant” includes all other costs (e.g., staff time from non- CDA departments, external consultants, etc.)
4. **Construction:** This phase includes expenditures for “Construction Mgmt – Staff”, “Construction Mgmt – Consultant” and “Direct Construction Costs”. This Construction phase includes all costs related to managing, overseeing, and inspecting a project once the project has been bid and awarded to an external firm for construction. “Construction Mgmt – Staff” refers to the cost for Division staff time, while “Construction Mgmt – Consultant” includes all other labor costs (e.g., staff time from non- CDA departments, external consultants, etc.) “Direct Construction Costs” refers to the actual cost to build the project.
5. **Environmental Monitoring:** This phase includes the costs associated with monitoring the environment affected by the project to ensure any impacts are mitigated. The environmental monitoring phase includes expenditures for “Env Monitoring – Staff” and “Env Monitoring – Consultant”. “Env Monitoring – Staff” refers to the cost for CDA staff time while “Env Monitoring – Consultant” includes all other costs (e.g., staff time from non-CDA departments, external consultants who specialize in environmental analysis, rental of monitoring equipment, etc.)

The project initiation date is the date that coincides with the project engineer's original budget.

Transportation Facilities Improvement Program Overview

The County Community Development Agency (CDA) is responsible for constructing, repairing and maintaining County Transportation Division facilities. The Transportation Facilities Improvement Program (TFIP) includes capital maintenance projects, which are prioritized based on several criteria, including health and safety, ongoing maintenance costs and state or Federal requirements.

The TFIP section of the 2016 Capital Improvement Program (CIP) Book includes one Facilities project – the Headington Wash Rack Facility Project (CIP #81134), formerly named Headington Wash Rack & Sewer Connection Project. The project is designed to meet requirements of the State Water Resource Control Board and Regional Water Quality Control Board, and includes the installation of an automated water treatment reclamation/recycling wash rack system at the Headington Corporation Yard. The improvements include construction of a covered vehicle wash building, electrical power supply, automated treatment recycle system (with treatment equipment and holding tanks), rainwater storage tanks, plumbing of water systems, and disconnecting from the existing sewer line. The purpose of this project is to replace and improve the existing uncovered wash rack for County fleet vehicles, thereby eliminating runoff and sewer discharges, decreasing use of domestic water for equipment maintenance and greatly improving water quality and environmental impacts.

Significant operational cost savings could be realized at the facility due to the elimination of sewer discharges (and corresponding sewer fees), and use of automated wash features (less labor and wash time). The CDA maintains an interactive map depicting the location of projects in the TFIP program, located at <http://gem.edcgov.us/cip/>.

Individual Projects - Grouped by Project Type

A project summary is provided in Section 4.4 for the TFIP project, which provides a detailed description, schedule, cost and revenue information. The “Revenues” section of the project summary includes anticipated revenue for the project. The “Expenditures” section of the project summary includes the various types of costs planned to be incurred for each project (i.e., Planning/Environmental, Design, Construction and Environmental Monitoring).

The “Project Schedule” section provides an estimate of the funding year each phase is expected to occur. This section is divided into the following phases:

1. **Planning/Environmental:** This phase includes expenditures for “Planning/Env – Staff” and “Planning/Env – Consultant”. Typically the first step in the project delivery process, the Planning/Environmental phase includes all costs related to planning the project, including the preliminary design and research required to complete the environmental analysis. “Planning/Env – Staff” refers to the cost for CDA staff time, while “Planning/Env – Consultant” includes all other costs (e.g., staff time from non-CDA departments, external consultants who specialize in environmental analysis, rental of monitoring equipment, etc.)

2. **Design:** This phase includes expenditures for “Design – Staff” and “Design – Consultant”. The Design phase includes all costs related to developing the project plans, specifications and engineer’s cost estimates to make a project bid-ready. This phase usually begins after the environmental document has been certified by the Board, and can be completed in parallel with the Right of Way acquisition phase. “Design – Staff” refers to the cost for CDA staff time, while “Design – Consultant” includes all other costs (e.g., staff time from non- CDA departments, external consultants, etc.)
3. **Right of Way:** This phase includes expenditures for “Right of Way – Staff”, “Right of Way – Acquisition”, and “Right of Way – Consultant”. The Right of Way phase includes all costs related to determining what property or easements are needed for a CIP project, and acquisition. This phase begins after the environmental document has been certified by the Board, and can be completed in parallel with the Design phase. “Right of Way – Staff” refers to the cost for CDA staff time; “Right of Way – Acquisition” refers to the cost of land; and “Right of Way – Consultant” includes all other costs (e.g., staff time from non- CDA departments, external consultants, etc.)
4. **Construction:** This phase includes expenditures for “Construction Mgmt – Staff”, “Construction Mgmt – Consultant” and “Direct Construction Costs”. This phase includes all costs related to managing, overseeing, and inspecting a project once the project has been bid and awarded to an external firm for construction. “Construction Mgmt – Staff” refers to the cost for Division staff time, while “Construction Mgmt – Consultant” includes all other labor costs (e.g., staff time from non- CDA departments, external consultants, etc.) “Direct Construction Costs” refers to the actual cost to build the project.
5. **Environmental Monitoring:** This phase includes the costs associated with monitoring the environment affected by the project to ensure any impacts are mitigated. The environmental monitoring phase includes expenditures for “Env Monitoring – Staff” and “Env Monitoring – Consultant”. “Env Monitoring – Staff” refers to the cost for CDA staff time while “Env Monitoring – Consultant” includes all other costs (e.g., staff time from non-CDA departments, external consultants who specialize in environmental analysis, rental of monitoring equipment, etc.)

The project initiation date is the date that coincides with the project engineer’s original budget.

Capital Overlay and Rehabilitation Program Overview

Capital Overlay and Rehabilitation Program (CORP) projects are roadway rehabilitation projects which require an improvement to the roadway structural integrity. CORP projects are very visible improvements that have positive impacts in El Dorado County. They are an efficient use of one time revenues, with lower planning, environmental, and design costs than other transportation projects (e.g., bridges, road widening projects, etc.). The Community Development Agency, Transportation Division (Transportation) is able to get overlay projects on the ground very quickly.

Transportation plans to overlay and rehabilitate as many of the roads as possible on its project priority list given available funding. Past asphalt concrete overlay projects have been funded by Regional Surface Transportation Program Exchange Funds, Proposition 1B, American Recovery and Reinvestment Act funds, and contributions from the General Fund and Tribal Funds. The Road Fund is generally used for maintenance work (e.g., brushing, ditching, chip seal, etc.) and not for asphalt concrete overlays.

Pavement Management Program (PMP)

Information provided by the Pavement Management Program (PMP) drives the Road Maintenance Program (RMP) and CORP. The PMP is a tool used to assist in monitoring the condition of all paved roads within the County. It maintains a history of surface treatment and overlay work performed on the roads. The PMP also assists in funding procurement by demonstrating use of proper maintenance strategies with existing funds.

The PMP allows staff to evaluate and monitor the condition of pavement to enable Transportation to use its limited resources in the most efficient manner possible. Ideally, each road should be inspected every other or every third year. Surface treatment and overlay data is entered upon completion of work, and used to prioritize maintenance and overlay work plans.

The PMP inspection process has two components.

In the field:

- For every 1,000 feet of roadway, 100 feet are inspected on foot.
- Each inspection looks for 19 different potential deficiencies.
- Each deficiency encountered is measured and evaluated for severity.
- Inspectors must be trained to identify deficiencies and properly evaluate severity.
- Inspection is quantitative and statistics-based.

In the office:

- Data is entered into the StreetSaver program.
- Pavement Condition Index (PCI) is calculated (on a scale of 0 to 100) and updated.
- Roads are prioritized for maintenance or overlay work.

The PMP will enable staff to focus on common-sense preventative maintenance, which will maximize the useful life of the County's roadway infrastructure.

CORP Annual Updating Process

Transportation prioritizes CORP projects based on several criteria, including pavement condition, traffic volume, traffic circulation and funding. Between October and February, staff performs pavement inspections (Tahoe inspections are performed prior to snow season). Upon completion of pavement inspections, the PMP database is updated. Between February and April, staff uses PMP data to set priorities for surface treatment and to determine which CORP projects to include in the Capital Improvement Program. During the period from April to October, staff or contractors perform overlay work.

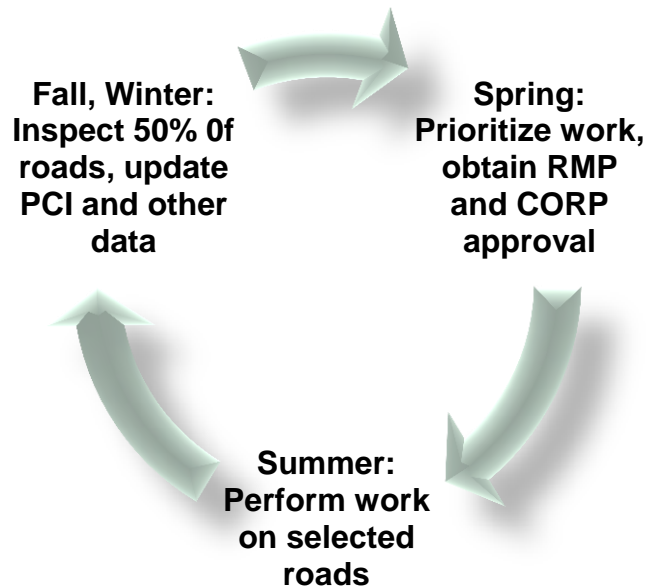

Figure 1-7: CORP Annual Updating Process

CORP Projects

As part of the \$1,250,000 Local Funds-Tribe annual funding designated in Fiscal Year 2015/16, Transportation completed the overlay of Patterson Drive between Lake Oaks Drive and Solstice Circle and Missouri Flat Road from State Route 49 to 700 feet north of State Route 49. The Patterson Drive and Missouri Flat Road Overlay project, shown in Table 1-4, was completed in August, 2016.

Two additional CORP projects: Gold Hill Overlay and Black Bart Avenue, Barbara Avenue and Martin Avenue Overlay are also included in the 2016 CIP. These projects are essentially complete, but are included to ensure proper closeout. Transportation maintains a list of potential CORP projects, which will be added to the CIP as funding becomes available.

Table 1-4: Current Year CORP Projects

Year Construction to Begin	Description	Authorized Funding	Estimated Cost
2016/17	Patterson Drive and Missouri Flat Road Overlay	Local Funds – Tribe (\$1,027,000), El Dorado Irrigation District (\$71,000)	\$1,098,000
		Total	\$1,098,000

Transportation’s strategy has been to fund CORP projects primarily with external funding. Table 1-5, the Infrastructure Investment Options List, includes projects staff has prioritized in no particular order. Projects on this list could be constructed if the Board wishes to approve additional General Fund revenue, continue allocating some Tribe revenue, or redirect revenue currently recommended for West Slope Road/Bridge Projects.

Table 1-5: CORP Infrastructure Options List

Project	Start	End	Length	ADT	PCI
Country Club Drive	Cambridge Road	Cameron Park Drive	8,607	2,752 - 3,970	53
El Dorado Hills Blvd.	Saratoga Way	Brittany Way	16,885	4,974 - 22,225	56
Elks Club Drive	Pioneer Trail	U.S. Highway 50	4,277	2,099	4
Greenwood Road	Marshall Road	State Highway 193	26,400	1,679	30
Marshall Road	State Highway 49	Black Oak Mine Road	29,410	3,367	30
Pleasant Valley Road	Mother Lode Drive	State Highway 49	6,706	9,292	59
Sawmill Road	U.S. Highway 50	Lake Tahoe Blvd.	9,715	1,495	24
Sly Park Road	Mt. Aukum Road	Sierra Springs Drive	25,399	2,971	46
Sly Park Road	Sierra Springs Drive	Mormon Emigrant Trail	9,766	2,059	46
South Shingle Road	Latrobe Road	U.S. Highway 50	47,203	1,044 - 9,751	42

Individual Projects - Grouped by Project Type

Individual Project Summaries are provided in Section 4.5 for each segment of the CORP, and provide detailed descriptions, timing, cost and revenue information. Projects are listed in alphabetical order within each segment of the CORP. The “Revenues” section of each project summary lists the various funding sources for each project. The “Expenditures” section of each project summary includes the various types of costs expected for each project (i.e., Design and Construction.) CORP projects do not normally have Planning/Environmental, Right of Way or Environmental Monitoring costs.

The “Project Schedule” section provides an estimate of the funding year each phase is expected to occur. This section is divided into the following phases:

1. **Planning/Environmental:** This phase includes expenditures for “Planning/Env – Staff” and “Planning/Env – Consultant”. Typically the first step in the project delivery process, the Planning/Environmental phase includes all costs related to planning the project, including the preliminary design and research required to complete the environmental analysis. “Planning/Env – Staff” refers to the cost for CDA staff time, while “Planning/Env – Consultant” includes all other costs (e.g., staff time from non-CDA departments, external consultants who specialize in environmental analysis, rental of monitoring equipment, etc.)
2. **Design:** This phase includes expenditures for “Design – Staff” and “Design – Consultant”. The Design phase includes all costs related to developing the project plans, specifications and engineer’s cost estimates to make a project bid-ready. This phase usually begins after the environmental document has been certified by the Board, and can be completed in parallel with the Right of Way acquisition phase. “Design – Staff” refers to the cost for CDA staff time, while “Design – Consultant” includes all other costs (e.g., staff time from non- CDA departments, external consultants, etc.)
3. **Right of Way:** This phase includes expenditures for “Right of Way – Staff”, “Right of Way – Acquisition”, and “Right of Way – Consultant”. The Right of Way phase includes all costs related to determining what property or easements are needed for a CIP project, and acquisition. This phase begins after the environmental document has been certified by the Board, and can be completed in parallel with the Design phase. “Right of Way – Staff” refers to the cost for CDA staff time; “Right of Way – Acquisition” refers to the cost of land; and “Right of Way – Consultant” includes all other costs (e.g., staff time from non- CDA departments, external consultants, etc.)
4. **Construction:** This phase includes expenditures for “Construction Mgmt – Staff”, “Construction Mgmt – Consultant” and “Direct Construction Costs”. This phase includes all costs related to managing, overseeing, and inspecting a project once the project has been bid and awarded to an external firm for construction. “Construction Mgmt – Staff” refers to the cost for Division staff time, while “Construction Mgmt – Consultant” includes all other labor costs (e.g., staff time from non- CDA departments, external consultants, etc.) “Direct Construction Costs” refers to the actual cost to build the project.

5. **Environmental Monitoring:** This phase includes the costs associated with monitoring the environment affected by the project to ensure any impacts are mitigated. The environmental monitoring phase includes expenditures for “Env Monitoring – Staff” and “Env Monitoring – Consultant”. “Env Monitoring – Staff” refers to the cost for CDA staff time while “Env Monitoring – Consultant” includes all other costs (e.g., staff time from non-CDA departments, external consultants who specialize in environmental analysis, rental of monitoring equipment, etc.)

The project initiation date is the date that coincides with the project engineer's original budget.

Revenue Sources and Potential Uses

- ❖ **State Highway Users Tax (aka “Gas Tax”):** Provided for under the Streets and Highway Code, Sections 2104-2106. Most of this funding is calculated by formula based on the number of licensed vehicles and maintained mileage.
- ❖ **Road District Tax:** A percentage of property taxes.
- ❖ **Public Utility Franchise Fees:** Provided for under the Streets and Highway Code, Sections 680-694. Public utility companies have entered into franchise agreements that provide for the payment of franchise fees to the County based on a percentage of power sales.
- ❖ **General Fund:** Can be used for anything the Board directs the Division to use it for, including capital overlays, road maintenance, matching funds for bridge grants, etc.
- ❖ **Federal/State Grants:** Grants awarded for various types of (primarily) capital projects.
- ❖ **Local Tribe Funds:** These funds can only be used in the specific area as defined in the Amendment of Memorandum of Understanding and Intergovernmental Agreement between the County of El Dorado and Shingle Springs Band of Miwok Indians.
- ❖ **MC&FP:** Master Circulation and Funding Plan: A portion of the sales and property tax collected in the Missouri Flat MC&FP district, which is to be used to fund roadway capital improvement projects inside the district (e.g., Missouri Flat Interchange, Diamond Springs Parkway).
- ❖ **TIM Fees:** Capital projects in “Exhibit B” of the most current Board adopted TIM Fee Resolution
 - Zone 8 TIM: (formerly known as “El Dorado Hills/Salmon Falls Area RIF”) Traffic Impact Mitigation fees to fund road improvements in the El Dorado Hills area (TIM Fee Program Zone 8)
 - Highway 50 TIM: Traffic Impact Mitigation fees collected in all Zones to fund road improvements along the Highway 50 Corridor
 - Zones 1-7 TIM: Traffic Impact Mitigation Fees to fund road improvements in the remainder of the county (TIM Fee Program Zones 1-7), excluding El Dorado Hills and Tahoe.
- ❖ **RSTP:** Regional Surface Transportation Program: This program was established by California State Statute utilizing Surface Transportation Program Funds that are identified in Section 133 of Title 23 of the United States Code. Various types of projects are eligible for funding from the RSTP including, but not limited to: construction, reconstruction, rehabilitation, resurfacing, restoration, and operational improvements on Federal-aid highways and bridges; safety improvements on public roads of all functional classifications; capital costs for transit projects eligible for assistance under the Federal Transit Act; etc.
- ❖ **Urban RSTP:** Can only be used in the urbanized area based on the Sacramento Urbanized Area Map 2010. Can only be used in the urbanized area based on the Sacramento Urbanized Area Map 2010. The Sacramento Urbanized Area Map was developed by the FHWA based on 2010 census data.

Revenue Sources and Potential Uses

- ❖ **Road Fund:** Used mostly in road maintenance, but occasionally used for Capital Overlay and Rehabilitation Program projects.
- ❖ **Rural RSTP:** Can only be used in areas that are outside those identified as Urban on the Sacramento Urbanized Area Map.
- ❖ **Accumulative Capital Outlay:** Can be used for capital outlays including the construction and maintenance of capital facilities. In the CIP, this funding is used for matching funds for Federal Aviation Administration grants for Airport projects.

Blair Road at EID Canal - Bridge Replacement

CIP Project Summary

Project No: 77119

Type: Bridge

Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

Project includes replacement of the bridge with culverts at the EID canal crossing, widening and minor realignment at the bridge approaches. The current estimate is a decrease from the original estimate due to advanced planning studies. Type selection resulted in advancing a culvert structure as the preferred alternative.

Expenditures thru 6/30/2016: \$428,516

Project Initiation Date: 12/16/10

Country Club Drive Realignment - Bass Lake Road to Tierra de Dios Drive CIP Project Summary

Project No: 71360

Type: Roadway

Supervisor District(s) 1

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

Realign Country Club Drive from Bass Lake Road/Old Bass Lake Road to Tierra de Dios Drive. Work includes constructing a two-lane road with 8-foot paved shoulders, sidewalk, curb and gutter. Part of the Bass Lake Hills Public Facilities Financing Plan (PFFP). Sidewalk, curb and gutter are not TIM Fee funded. Includes necessary improvements at Bass Lake Road Intersection (CIP #71361) to accommodate realignment.

Expenditures thru 6/30/2016: \$0

Project Initiation Date: 08/22/06

Diamond Springs Parkway - Phase 1A - SR-49 Realignment

CIP Project Summary

Project No: 72375

Type: Roadway

Supervisor District(s) 3

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

Project realigns SR-49/Diamond Road from Pleasant Valley Road to north of Lime Kiln. Project realigns SR-49/Diamond Road to the west to create frontage road for residences along the east. SR-49/Diamond Road will be improved with 12-foot lanes and 8-foot shoulders. Project includes signal modifications at Pleasant Valley Road/SR-49 intersection and potential underground utility district.

Expenditures thru 6/30/2016: \$2,227,678

Diamond Springs Parkway - Phase 1B

CIP Project Summary

Project No: 72334

Type: Roadway

Supervisor District(s) 3

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

Project provides a new four-lane arterial roadway with concrete curb, gutter and sidewalk on both sides from Missouri Flat Road east of Golden Center Drive to a new T-intersection with SR-49 south of Bradley Drive. The project also includes widening and improvements to SR-49/Diamond Road from the new roadway intersection to Lime Kiln Road and signalization of multiple intersections. This project also includes a sidewalk on the east side of SR-49. Two lanes of the project, Right of Way, curb & gutter, and sidewalk are TIM Fee funded. Ultimate Intersection improvements for the intersection with SR-49 and Missouri Flat Road are TIM Fee funded.

Expenditures thru 6/30/2016: \$3,851,784

Newtown Road at South Fork of Weber Creek - Bridge Replacement

Financing Plan & Tentative Schedule

Project No: 77122

Type: Bridge

Supervisor District(s) 3

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

Project includes bridge replacement at the South Fork Weber Creek (Bridge No. 25C0033, PM 4.4), widening improvements with horizontal and vertical realignment of Newtown Road at each bridge approach side, safety railing, improvements to roadway drainage and retaining walls. Advanced planning study has demonstrated a need for a substantial increase in the size of the retaining walls.

Expenditures thru 6/30/2016: \$628,566

Project Initiation Date: 04/27/10

Saratoga Way Extension - Phase 1

Financing Plan & Tentative Schedule

Project No: 71324

Type: Roadway

Supervisor District(s) 1

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

Phase 1 will construct a new two-lane (including median and standard 6 foot shoulders) arterial road to extend Saratoga Way from the current terminus at the Sacramento County Line to Finders Way. Other improvements include grading for the ultimate project, a two-way left lane from Finders Way to Arrowhead, installing asphalt concrete path at north side of the roadway and drainage systems for the ultimate project. Project will environmentally clear and secure right-of-way for future four-lane road from County Line to El Dorado Hills Boulevard.

Expenditures thru 6/30/2016: \$1,088,308

Project Initiation Date: 08/22/06

Silva Valley Parkway Class 1 and Class 2 Bike Lanes (Harvard to Green Valley)

Financing Plan & Tentative Schedule

Project No: 72310

Type: Pedestrian Way and Bike Path

Supervisor District(s) 1

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

Design and construct 1.1 miles of Class I Bike Path east of Silva Valley Parkway, from Harvard Way to the Appian Way intersection at Silva Valley Parkway. The project will also construct approximately 0.9 miles of Class II Bike Lane along northbound and southbound Silva Valley Parkway from the Appian Way intersection to Green Valley Road. The project includes a Class II bike lane along southbound Silva Valley Parkway from Appian Way to Harvard Way.

Expenditures thru 6/30/2016: \$313,775

Project Initiation Date: 03/18/14

Project Description:

Part of a larger project to reconstruct the interchange and provide US 50 and El Dorado Hills Interchange with HOV lanes and ramp metering. Complete reconstruction of this interchange is being phased to align improvement needs, construction staging within the US 50 corridor, and available funding. This Phase improves the on-ramp and off-ramp for westbound US 50. Project includes roadwork, ramp metering, bridge structure, retaining walls, barrier, and traffic signal modifications.

Expenditures thru 6/30/2016: \$17,708,551

Project Initiation Date: 08/01/11

Project Description:

Phase 1 of a larger project for the complete reconstruction of the Bass Lake Road Interchange. Phase 1 of this project includes a detailed study to determine the complete improvements needed. Phase 1 is assumed to include ramp widenings, road widening and signals. Phase 1 assumes bridge replacement. Phase 2 (GP148) is assumed to include additional ramp and road widenings. This project needs to coordinate with US 50 Eastbound Auxiliary Lane from Bass Lake Road Interchange to Cambridge Road Interchange (GP148) and US 50 Westbound Auxiliary Lane from Cambridge Road Interchange to Bass Lake Road Interchange (GP149).

Expenditures thru 6/30/2016: \$22,164

U.S. 50/Cambridge Road Interchange Improvements

Financing Plan & Tentative Schedule

Project No: 71332

Type: Interchange

Supervisor District(s) 2

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

Phase 1 Improvements to Cambridge Road Interchange. Phase I project consists of widening the existing eastbound and westbound off-ramps; addition of new westbound on-ramp from southbound Cambridge Road; reconstruction of the local intersections to provide for additional capacity, both turning and through; and the installation of traffic signals at eastbound ramp terminal intersection. Also includes preliminary engineering for Phase 2 improvements to Cambridge Interchange (GP149).

This project shall also be coordinated with the US 50 Eastbound Auxiliary Lane from Bass Lake Road Interchange to Cambridge Road Interchange (GP148), US 50 Eastbound Auxiliary Lane from Cambridge Road Interchange to Cameron Park Interchange (53126) and US 50 Westbound Auxiliary Lane from Cambridge Road Interchange to Bass Lane Road Interchange (GP149).

Expenditures thru 6/30/2016: \$38,722

U.S. 50/Cameron Park Drive Interchange Improvements

Financing Plan & Tentative Schedule

Project No: 72361

Type: Interchange

Supervisor District(s) 2, 4

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

Project provides capacity improvements to the interchange. The project includes a detailed study to identify alternatives and selection of the preferred alternative. The preferred alternative has not been selected. For budgeting purposes, the project assumes construction of Alternative 1 in US 50/Cameron Park Drive PSR/PDS dated October 2008 consisting of reconstruction of the existing US50 bridges to widen Cameron Park Drive to eight lanes under the undercrossing for a 20-year design life. The project includes widening Cameron Park Drive to 3 through lanes each direction at Palmer and widening all ramps to 2 lanes.

It will be coordinated with US50 Eastbound Auxiliary Lanes from Cambridge Road Interchange to Cameron Park Drive Interchange (53126), US 50 Eastbound Auxiliary Lanes from Cameron Park Drive Interchange to Ponderosa Road Interchange (53127) and US 50 Westbound Auxiliary Lanes from Ponderosa Road Interchange to Cameron Park Drive Interchange (53128).

Expenditures thru 6/30/2016: \$1,140,650

Project Initiation Date: 08/22/06

U.S. 50/Camino Area Safety Project

Financing Plan & Tentative Schedule

Project No: 71319

Type: Interchange

Supervisor District(s) 3

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

The current goal of the US 50 Camino Area Safety Improvement Project is to improve access and reduce accidents. A preliminary study completed and approved by Caltrans in 2010 looked at alternatives and recommended limiting at grade crossings, improve parallel capacity and suggested extending Ponderado Road north to a future US 50 undercrossing. Caltrans is the lead agency on this project and is working on a final Project Study Report and Environmental document that can lead to a design and construction phase if funding is available. The County is providing oversight for this Caltrans project and possible portions of future local road construction.

Expenditures thru 6/30/2016: \$650,769

Project Initiation Date: 06/30/97

Project Description:

Project would involve construction of left and right turn lanes and additional through traffic lanes as follows: north/southbound El Dorado Road, and east/westbound on-/off-ramps for US 50. Will require either widening of the existing El Dorado Road/US 50 overcrossing structure and/or construction of a new adjacent structure. Refer to 2000 PSR. See Project No 71347 for Phase 1 improvements.

Expenditures thru 6/30/2016: \$0

Project Initiation Date: 08/22/06

U.S. 50/Missouri Flat Road Interchange Improvements - Phase 1C Riparian Restoration Financing Plan & Tentative Schedule

Project No: 71346

Type: Interchange

Supervisor District(s) 3

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

This project, Phase 1C, is the third of three phases to construct the Phase 1 option addressed in the FEIR for the "US 50/Missouri Flat Road Interchange". The Phase 1C project is proposed to include riparian restoration and landscape improvements as required by the PR & FEIR for the project. The project will include the design, specifications, an implementation plan, maintenance plan, maintenance requirements and a monitoring program for the restoration of native riparian vegetation and trees that are or have been removed as a part of the overall Phase 1 project construction.

Expenditures thru 6/30/2016: \$301,309

Project Initiation Date: 05/05/09

U.S. 50/Ponderosa Rd Interchange - Durock Rd Realignment

Financing Plan & Tentative Schedule

Project No: 71338

Type: Interchange

Supervisor District(s) 2

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

Project Description:

This project includes realignment of approximately 1/4 mile of Durock Road to South Shingle Road/Sunset Lane and signalization of the new intersection. Durock Road will be two through lanes with turn pockets at the intersection. This project is part of a larger project, US 50/Ponderosa Road/South Shingle Road interchange (project 71333). Preliminary engineering shall be performed under the interchange project. Work needs to be coordinated with US 50/Ponderosa Road/South Shingle Road Interchange (project 71333), US 50/Ponderosa Road Interchange - N. Shingle Road Realignment (project 71339) and US 50 Eastbound Auxiliary Lane from Cameron Park Drive Interchange to Ponderosa Road Interchange (53127).

Expenditures thru 6/30/2016: \$14,600

Project Initiation Date: 02/11/08

U.S. 50/Ponderosa Rd/So. Shingle Rd Interchange Improvements

Financing Plan & Tentative Schedule

Project No: 71333

Type: Interchange

Supervisor District(s) 2, 4

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

Project provides capacity improvements to the interchange, includes a detailed study to identify a preferred alternative. This phase of the project includes the widening of the existing US 50 overcrossing to accommodate five lanes and the realignment of the westbound loop on-ramp, ramp widenings, and widening of Ponderosa Road, Mother Lode Drive and South Shingle Road. Preliminary engineering for all phases (projects 71333, 71338 and 71339) shall be performed under the interchange project. This project requires the construction of US 50 /Ponderosa Road - North Shingle Road Realignment (project 71338) and US 50 / Ponderosa Road Interchange - Durock Road Realignment (project 71339). This project shall also be coordinated with US 50 Eastbound Auxiliary Lanes - Cameron Park Interchange to Ponderosa Road Interchange (53127), and US 50 Westbound Auxiliary Lanes - Ponderosa Road Interchange to Cameron Park Drive Interchange (53128).

Expenditures thru 6/30/2016: \$1,091,424

Apache Avenue/US 50 Intersection Signalization

CIP Project Summary

Project No: 73120

Type: Intersection

Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

Perform Operational Study and Signalize Intersection at the Apache/Hwy 50 intersection. Coordinate with Caltrans to perform an operational study on this intersection to evaluate traffic flow and circulation. The study will also include a regional component which analyzes the entire Meyers area from Chiapa Road through State Route 89/US 50 intersection to Sawmill Road. US 50 is a state highway and as such the state should participate in advancement of a project to signalize this intersection. Regional Surface Transportation Program funding from Tahoe Regional Planning Agency (TRPA) is programmed for the operational study.

Expenditures thru 6/30/2016: \$175,533

Project Initiation Date: 12/06/10

Chiapa Erosion Control Project

CIP Project Summary

Project No: 95174

Type: Erosion Control - (EIP)

Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

The Chiapa Erosion Control Project encompasses the streets of Chiapa Drive, Tolteca Court and Taos Court. The main goal of the Project is to improve the clarity of Lake Tahoe by reducing the detrimental water quality impacts of Tahoe Paradise Unit No. 34 subdivision on Lake Tahoe clarity. The objective of the Project is the reduction in the transport of fine sediment from the Project area by constructing water quality Best Management Practices (BMPs) prior to reaching the Upper Truckee River to the maximum extent practicable.

Expenditures thru 6/30/2016: \$0

Project Initiation Date: 06/23/09

Country Club Heights Erosion Control Project

CIP Project Summary

Project No: 95191

Type: Erosion Control - (EIP)

Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

The Country Club Heights Erosion Control Project is within the Country Club Heights subdivision (Units 1-5), more specifically between Crystal Air Drive at the upper southerly boundary to U.S. Highway 50 to the north and Thunderbird Drive at the upper westerly boundary to the Upper Truckee River to the west. The main goal of this Project is to reduce very fine/fine sediment from the County right-of-way from reaching the Upper Truckee River near Elks Club Road to the Total Maximum Daily Level (TMDL) set by Lahontan Regional Water Quality Control Board under the National Pollution Discharge Elimination System (NPDES) permit conditions.

Expenditures thru 6/30/2016: \$43,708

Project Initiation Date: 07/01/11

CSA # 5 Upper Area Erosion Control Project

CIP Project Summary

Project No: 95196

Type: Erosion Control - (EIP)

Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

The CSA # 5 Upper Area Erosion Control Project includes the developed portions of the Tahoe Cedars subdivision southwest of Highway 89 between the El Dorado County Line and Poplar Street. The goal of the Project is to reduce the concentration of fine sediment in the storm water which exits the Project area before reaching Lake Tahoe. The funding for this Project will be provided by the California Tahoe Conservancy Soil Erosion Control Grants Program.

Expenditures thru 6/30/2016: \$328,239

Project Initiation Date: 03/25/13

CSA #5 Erosion Control Project

CIP Project Summary

Project No: 95157

Type: Erosion Control - (EIP)

Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

The Project area is located in Tahoma on the west shore of Lake Tahoe, and is bounded by Lake Tahoe and First Avenue to the east, the El Dorado/Placer County line to the north, Chinkapin Road and Placer Street to the west and Cedar Street to the South. The Project area is identified in the Tahoe Regional Planning Agency's (TRPA) Environmental Improvement Project (EIP) list as project number 01.01.01.0067 (formerly No. 10062) and is located within TRPA designated Priority 2 Watershed 56 (General Creek).

The current Project will address areas of interest that were not addressed by the CSA #5 Upper Area Erosion Control Project (CIP No. 95196). It is anticipated that all of the proposed improvements for this Project will be modifications to existing infrastructure within the County rights-of-way.

Expenditures thru 6/30/2016: \$358,952

Project Initiation Date: 10/26/98

Forest View Water Quality Project

CIP Project Summary

Project No: 95195

Type: Erosion Control - (EIP)

Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

The Forest View Water Quality Project is within the Rubicon Properties Unit No. 2 subdivision which is roughly bordered by Lonely Gulch to the north, Woodland Drive to the east, Highland Drive to the south, and the Forest View to the west. As part of a previously constructed water quality project, most sources of erosion in the area were addressed, but had minimal treatment. The previous project also helped to connect the storm water flows to Lonely Gulch. The main goal of this Project are to reduce the very fine and fine sediment which will improve the clarity of Lake Tahoe.

Expenditures thru 6/30/2016: \$365,447

Project Initiation Date: 04/01/13

Glenridge Erosion Control Project

CIP Project Summary

Project No: 95180

Type: Erosion Control - (EIP)

Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

The Glenridge Erosion Control Project is bounded by the Northridge Drive to the north, forested lands to the west, State Route 89 to the east and Sunnyview Drive to the south. The main goal of the Project is to improve the clarity of Lake Tahoe by reducing the detrimental water quality impacts of the Glenridge Park Unit No. 1 subdivision on Lake Tahoe clarity. The objective of the Project is the reduction in the transport of fine sediment from the Project area by constructing water quality Best Management Practices (BMPs) prior to reaching Lake Tahoe to the maximum extent practicable.

Expenditures thru 6/30/2016: \$0

Project Initiation Date: 06/23/09

Golden Bear Erosion Control Project

CIP Project Summary

Project No: 95176

Type: Erosion Control - (EIP)

Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

The Golden Bear Erosion Control Project is within the Tahoe Regional Planning Agency (TRPA) Plan Area Statement area 115-Golden Bear, 095-Trout/Cold Creek, and 100-Truckee Marsh (Figure A). In addition it is indentified in the Environmental Improvement Program (EIP) as Area #703 requiring erosion control and water quality treatment Best Management Practices (BMPs). The subdivision was constructed with conveyance systems in the County ROW, including curb and gutter, drainage inlets, and underground storm drain pipe. These systems were designed to convey, but not to treat the storm water. The main goal of the Project is to reduce the very fine and fine sediment from the Montgomery Estates Unit No. 7 subdivision which will improve the clarity of Lake Tahoe.

Expenditures thru 6/30/2016: \$319,682

Highway 89 Class 1 Trail

CIP Project Summary

Project No: 95708

Type: Pedestrian Way and Bike Path

Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

The Class I bikeway along State Route 89 from Portal Road to US Highway 50 in Christmas Valley is intended to improve the regional bicycle path network by providing a critical link through the Christmas Valley area. The purpose of the project is to provide access to local businesses, schools, and offices for bicyclists and pedestrians, to reduce vehicular transportation, and to enhance recreational opportunities within the Lake Tahoe Basin. This bicycle facility will connect to the existing Pat Lowe Memorial Bike Path in community of Meyers.

Expenditures thru 6/30/2016: \$0

Lake Tahoe Boulevard Erosion Control Project

Financing Plan & Tentative Schedule

Project No: 95163

Type: Erosion Control - (EIP)

Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

This is one of three Project components within this area, CIP No. 95186 which contains a Class I multi-use path and the restoration of the stream environment zone (SEZ) (CIP No. 95175) to its natural function near the intersection of Lake Tahoe Blvd and Sawmill Road. This component, along with CIP No. 95175 is combined as one. The Project will implement erosion source controls, storm water treatment facilities and SEZ enhancements along the Lake Tahoe Boulevard corridor from Clear View Drive to Industrial Ave. The Project intends to connect the Class 2 bike lanes at Clear View Drive and tie into the Class 1 bike facilities at Sawmill Road.

Expenditures thru 6/30/2016: \$699,169

Project Initiation Date: 02/15/07

Meyers Stream Environment Zone/Erosion Control Project

Financing Plan & Tentative Schedule

Project No: 95179

Type: Erosion Control - (EIP)

Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

The Meyers Stream Environment Zone/Erosion Control Project is located in Tahoe Paradise-Meadowvale, Tahoe Paradise-Mandan and Meyers Residential. The main goal of the Project is to improve the clarity of Lake Tahoe by reducing the detrimental water quality impacts of the Meyers residential area on Lake Tahoe clarity. The objective of the Project is the reduction in the transport of fine sediment from the Project area by constructing water quality Best Management Practices (BMPs) within the Project area. This Project will be split into several areas with the main area focused on the US 50/Meyers corridor area based on the Pollutant Load reductions models.

Expenditures thru 6/30/2016: \$626,247

Project Initiation Date: 12/15/10

Project Description:

The Oflyng Water Quality Project is within the Country Club Heights subdivision (Unit 5) and Tahoe Paradise Subdivision (Unit 48), more specifically between Crystal Air Drive at the upper northerly boundary to Pioneer Trail to the south and Southern Pines Drive at the westerly boundary to Elks Club Drive to the east. The project benefits will include increased water quality of urban stormwater and dry weather runoff through infiltration, addressing flood management issues with Low Impact Design principles, and community outreach on stormwater as a resource.

Expenditures thru 6/30/2016: \$0

Project Initiation Date: 03/18/14

Passenger Facility

Financing Plan & Tentative Schedule

Project No: 95838

Type: Miscellaneous

Supervisor District(s) 5

Project Description:

Transit passenger facilities will be constructed within the unincorporated El Dorado County portion of the Tahoe Basin. The construction of this transit passenger facility will aid in achieving regional transportation goals related to decreasing dependency on the private automobile by making transit more user friendly for both the local population as well as the high number of visitors who frequent the area. Through the implementation of this project, El Dorado County hopes to increase transit ridership to assist in the protection of the Lake Tahoe environment through a reduction in Vehicle Miles Traveled. These facilities will aid in the operation of the system by making it more enticing and visible to the community.

Expenditures thru 6/30/2016: \$0

Project Initiation Date: 05/05/09

Sawmill 2B Bike Path and Erosion Control Project

Financing Plan & Tentative Schedule

Project No: 95192

Type: Pedestrian Way and Bike Path

Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

The Sawmill 2 Bike Path and Erosion Control Project (CIP No. 95165) was initiated as one Project. The Project area covered Sawmill Road from US Hwy 50 to Lake Tahoe Boulevard. Due to funding constraints and seasonal construction constraints, the Project was split into two Phases (2A and 2B). The Sawmill 2B Bike Path and Erosion Control Project area covers from US Hwy 50 to the end of Phase 2A near Echo View Drive. The Project includes, but is not limited to, connecting the multi-use path to the existing multi-use path facility at US Hwy 50, installing erosion control best management practices (BMPs) and revegetation.

Expenditures thru 6/30/2016: \$2,844,120

Project Initiation Date: 04/18/11

South Upper Truckee I Erosion Control Project

Financing Plan & Tentative Schedule

Project No: 95168

Type: Erosion Control - (EIP)

Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

Treat eroding cut and fill slopes in County right-of-way. Reduce the very fine and fine sediment from the urban watersheds. Revegetation of disturbed areas. Install curb and gutter, rock-lined channels, sediment basins. Restore SEZ. Perform right-of-way acquisitions. This Project will most likely be split into several phases. It is anticipated that other grant funding will be available in the future through EIP grant funding programs available to the County.

Expenditures thru 6/30/2016: \$133,584

Project Initiation Date: 12/06/10

Tahoe Hills Erosion Control Project

Financing Plan & Tentative Schedule

Project No: 95171

Type: Erosion Control - (EIP)

Supervisor District(s) 5

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

The Tahoe Hills Erosion Control Project is within the Tahoe Hills subdivision which is bordered by Highway 89 to the north and south, and by Lake Tahoe to the east . The Project area encompasses County ROW, Caltrans ROW, California Tahoe Conservancy, United States Forest Service, and privately owned property. The main goal of the Project is to reduce the very fine and fine sediment from the Tahoe Hills subdivision which will ultimately improve the clarity of Lake Tahoe.

Expenditures thru 6/30/2016: \$734,008

Project Initiation Date: 11/15/09

Airport Layout Plan 2021 Update - Georgetown

CIP Project Summary

Project No: 93523

Type: Airports

Supervisor District(s) 4

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

Georgetown Airport - The Airport Layout Plan (ALP) is a drawing/plan depicting the orientation and location of key airport facilities, such as runways and navigational aids, and it takes into consideration such factors as approach zones, prevailing winds, airspace use, land contours, etc. The ALP must show dimensional relationships between operational and support facilities, and provide adequate areas for the orderly expansion of the airport. This is essential if facilities are to be ultimately located where they can best serve their intended purposes, while still conforming to applicable safety and construction criteria. The ability to obtain grants from the FAA is dependent on the ALP being up to date and showing an accurate layout of proposed projects, as well as all existing structures and previously completed projects. The ALP should be updated every 5 to 10 years, or when more than 10% of planned improvements have been made. The current ALP was revised in 2007 and includes projects through 2017. The ALP is being updated in 2016 and is scheduled to be reviewed and updated again in 2021.

Expenditures thru 6/30/2016: \$0

Project Initiation Date: 05/05/09

Project Description:

Georgetown Airport - Weather conditions at Georgetown Airport vary considerably from day to day and during the day. In order to provide the pilot with up-to-date information on wind and other weather conditions, it is desired to install an AWOS III at this airport. This is a safety measure that will improve the safety performance of the airport and in the future provide weather information to the various agencies for reporting to the public.

Expenditures thru 6/30/2016: \$0

Project Initiation Date: 05/05/09

Crack Seal, Joint Seal & Mark Runway, Taxiways, Aprons & T-Hanger Taxilanes; Change Runway End ID

CIP Project Summary

Project No: 93527

Type: Airports

Supervisor District(s) 4

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

Georgetown Airport - The taxiways, apron and tee hanger taxilanes were crack sealed or slurry sealed in 2006. It is proposed in this project to shape the cracks to receive joint seal and then seal the cracks. Normal wear has removed a portion of the seal on the runway and portions of the seal have separated from the pavement. The migration of the north magnetic pole has been such that the identification numbers on the runway will have to be changed. The current numbers are "16-34" and they need to be changed to "17-35". This project will consist of removing the existing runway number markings and repainting the new runway number markings. In addition, the hold bars at the airport are 6" wide and the new FAA standards are 12" wide hold bars.

Expenditures thru 6/30/2016: \$1,356

Project Initiation Date: 04/17/10

Obstruction Survey

CIP Project Summary

Project No: 93503

Type: Airports

Supervisor District(s) 4

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

Georgetown Airport - To meet FAA regulations regarding obstructions that penetrate the airport's imaginary surfaces, obstructions, such as trees, need to be removed or topped. This project includes preparation of an Obstruction Survey and Obstruction Mitigation Report and is strongly recommended by the FAA. The FAA determined that this project is directly related to airport planning and design and is necessary for the preparation of an accurate Airport Layout Plan's (ALP) Airspace Plan and Profile Drawing and depiction of validated geodetic data for the ALP runway ends. Therefore, these services will be prepared concurrently with the ongoing ALP with Program Narrative Report (ACIP 93528). The purpose of this project is to collect aerial imagery for planimetric feature extraction and accomplish an FAA Airspace Analysis survey. The resulting Report will include an evaluation of future mitigation options and anticipated mitigation costs for this airport's obstructions. Upon completion of the project, as well as any required environmental clearance, the FAA is now offering grants for obstruction removal, such as trees or obstruction poles, for which the County plans to apply.

Expenditures thru 6/30/2016: \$85,055

Project Initiation Date: 05/26/15

[Click for Interactive Map](#)

Project Description:

Georgetown Airport - Develop a Pavement Maintenance Program (PMP).

The key elements of the PMP are:

- * Determine geological or meteorological conditions that may affect the life of a pavement structure
- * Inspection Schedule
- * Pavement Inventory
- * Distress Identification Index
- * Inspection Reports
- * Economic Analysis and Prioritizing System
- * Program Funding and Programming

The maintenance program will not only assure proper and timely maintenance but can also be used to justify the necessary funding.

Expenditures thru 6/30/2016: \$436

Project Description:

Placerville Airport - The Airport Layout Plan (ALP) is a drawing/plan depicting the orientation and location of key airport facilities, such as runways and navigational aids, and it takes into consideration such factors as approach zones, prevailing winds, airspace use, land contours, etc. The ALP must show dimensional relationships between operational and support facilities, and provide adequate areas for the orderly expansion of the airport. This is essential if facilities are to be ultimately located where they can best serve their intended purposes, while still conforming to applicable safety and construction criteria. The ability to obtain grants from the FAA is dependent on the ALP being up to date and showing an accurate layout of proposed projects, as well as all existing structures and previously completed projects. The ALP should be updated every 5 to 10 years, or when more than 10% of planned improvements have been made. The current ALP was revised in 2012 and includes projects through 2017. The ALP is scheduled to be reviewed and updated again in 2017.

[Click for Interactive Map](#)

Project Description:

Placerville Airport - The existing taxiway edge lights at Placerville Airport are stake mounted and are serviced by direct-burial cable and an old regulator. The existing taxiway edge light circuit is old and requires considerable maintenance. This project includes the removal of the existing taxiway lights and installation of new base-mounted taxiway lights, new lighted signs, new duct, and new cable. A new regulator will also be installed in the electrical vault to power the new taxiway circuit.

Expenditures thru 6/30/2016: \$1,034

Project Initiation Date: 05/05/09

Update Pavement Maintenance/Management Program

CIP Project Summary

Project No: 93131

Type: Airports

Supervisor District(s) 3

LOCATION MAP

NOT TO SCALE

[Click for Interactive Map](#)

Project Description:

Placerville Airport - Develop a Pavement Maintenance Program (PMP).

The key elements of the PMP are:

- * Determine geological or meteorological conditions that may affect the life of a pavement structure
- * Inspection Schedule
- * Pavement Inventory
- * Distress Identification Index
- * Inspection Reports
- * Economic Analysis and Prioritizing System
- * Program Funding and Programming

The maintenance program will not only assure proper and timely maintenance but can also be used to justify the necessary funding.

Expenditures thru 6/30/2016: \$790

Project Description:

Project includes the installation of an automated water treatment reclamation/recycling wash rack system at the Headington Corporation Yard. The improvements include construction of a covered vehicle wash building, electrical power supply, automated treatment recycle system (with treatment equipment and holding tanks), rainwater storage tanks, plumbing of water systems, and disconnecting from the existing sewer line. The purpose of this project is to replace and improve the existing uncovered wash rack for County fleet vehicles, thereby eliminating runoff and sewer discharges, decreasing use of domestic water for equipment maintenance and greatly improving water quality and environmental impacts.

Expenditures thru 6/30/2016: \$559,919

Project Initiation Date: 08/06/02

Acronyms and Definitions

1. ACO: Accumulative Capital Outlay
2. ARRA: The American Recovery and Reinvestment Act of 2009 (Federal grant program)
3. Aux lane: Auxiliary lane – off or on ramps are sometimes extended the entire distance between interchanges to enhance merging of the traffic entering or exiting a highway.
4. BTA: Bicycle Transportation Account
5. CEQA: California Environmental Quality Act
6. CIWMB: California Integrated Waste Management Board
7. CIP: Capital Improvement Program
8. CMAQ: Congestion Mitigation Air Quality
9. CMIA: Corridor Mobility Improvement Account (Prop 1B)
10. CORP: Capital Overlay and Rehabilitation Program
11. CTC: California Transportation Commission
12. CTC: California Tahoe Conservancy
13. DA: Developer Advance: Developers advance the construction of improvements in the County's Capital Improvement Program where reimbursement agreements state terms for reimbursement from the future collection of impact fees.
14. Developer Funded: Developer conditioned improvements funded by the developer.
15. DEIR: Draft Environmental Impact Report
16. EDO: Economic Development Overlay
17. EDCTC: El Dorado County Transportation Commission
18. EIP: Environmental Improvement Program (for Tahoe)
19. EIR: Environmental Impact Report
20. Expenses through 6/30/16: All actual costs expended on a project through the end of the prior fiscal year.
21. FAA: Federal Aviation Administration
22. Federal/State Grants: Grants awarded for various types of (primarily) capital projects.
23. FHWA: Federal Highway Administration
24. FEIR: Final Environmental Impact Report
25. FLAP: Federal Lands Access Program
26. GADS: Geometric Approval Drawings (for Caltrans)
27. General Fund: Can be used for anything the Board directs CDA to use it for, including capital overlays, road maintenance, matching funds for bridge grants, etc.
28. HBP: Highway Bridge Program: The HBP program provides funds to replace or rehabilitate deficient highway bridges. (formerly HBRR – Highway Bridge Rehabilitation Replacement Program).
29. Highway 50 TIM: Traffic Impact Mitigation Fees collected in all Zones to fund road improvements along the Highway 50 Corridor.
30. HOV: High Occupancy Vehicle

31. HRRRP: High Risk Rural Roads Program (Federal grant program)
32. HSIP: Highway Safety Improvement Program (Federal grant program)
33. ITS: Intelligent Transportation Systems
34. LOS: Level of Service
35. MC&FP: Master Circulation and Funding Plan: A portion of the sales and property tax collected in the MC&FP district, which is to be used to fund roadway capital improvement projects inside the district (e.g., Missouri Flat Interchange, Diamond Springs Parkway).
36. NEPA: National Environmental Policy Act
37. NPDES: National Pollution Discharge Elimination System
38. PA & ED: Project Approval and Environmental Document
39. PDR: Project Development Support
40. PLHD: Public Lands Highway Discretionary
41. PR: Project Report
42. PS&E: Plans, Specifications and Estimates
43. PSR: Project Study Report
44. PUFF: Public Utility Franchise Fees: Provided for under the Streets and Highway Code, Sections 680-694. Public utility companies have entered into franchise agreements that provide for the payment of franchise fees to the County based on a percentage of power sales.
45. Project Initiation Date: This is the date that coincides with the project engineer's original estimate.
46. Proposition 1B: As approved by the voters in the November 2006 general elections, Proposition 1B enacts the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006 to authorize \$19.925 billion of state general obligation bonds for specified purposes, including high-priority transportation corridor improvements, State Route 99 corridor enhancements, trade infrastructure and port security projects, school bus retrofit and replacement purposes, state transportation improvement program augmentation, transit and passenger rail improvements, state-local partnership transportation projects, transit security projects, local bridge seismic retrofit projects, highway-railroad grade separation and crossing improvement projects, state highway safety and rehabilitation projects, and local street and road improvement, congestion relief, and traffic safety.
47. RAC: Targeted Rubberized Asphalt Concrete Incentive Program (Grant program offered by the State's CIWMB)
48. RDT: Road District Tax: A percentage of property taxes.
49. ROW or R/W: Right of Way
50. RSTP: Regional Surface Transportation Program: This program was established by California State Statute utilizing Surface Transportation Program Funds that are identified in Section 133 of Title 23 of the United States Code. Various types of projects are eligible for funding from the RSTP including, but not limited to: construction, reconstruction, rehabilitation, resurfacing, restoration, and operational improvements on Federal-aid highways and bridges; safety improvements on public roads of

all functional classifications; capital costs for transit projects eligible for assistance under the Federal Transit Act; etc.

- Urban RSTP: Can only be used in the urbanized area based on the Sacramento Urbanized Area Map 2010. The Sacramento Urbanized Area Map was developed by the FHWA based on 2010 census data.
 - Rural RSTP: Can only be used in areas outside those identified as Urban on the Sacramento Urbanized Area Map.
51. RSTP-G: Regional Surface Transportation Program Exchange Funds – Guaranteed: Portion of RSTP that is received by El Dorado County based on formula or apportionment per Street & Highways Code section 182.6h.
 52. RWQCB: Regional Water Quality Control Board
 53. Road Fund: Road Fund Discretionary: Various entitlements received by the County Road Fund for general road purposes. Funding sources include State Gas Tax, Federal Forest Reserve, Road District Tax and Transportation Development Act funds.
 54. SCIP: Statewide Community Infrastructure Program: A financing program that enables developers to pay most impact fees or finance developer conditioned improvements that qualify under the 1913/1915 Act.
 55. SEZ: Stream Environment Zone.
 56. SHOPP: State Highway Operation and Protection Program (State grant program)
 57. SLPP: State and Local Partnership Program (State grant program)
 58. SPTC: Sacramento - Placerville Transportation Corridor
 59. STIP: State Transportation Improvement Plan (State grant program)
 60. SR2S: Safe Routes to School (State grant program)
 61. SRTS: Safe Routes to School (Federal grant program)
 62. Silva Valley Set-Aside: 30% of all TIM fees collected in El Dorado Hills Area Zone 8 to fund the future Silva Valley Interchange.
 63. State Highway Users Tax (aka “Gas Tax”): Provided for under the Streets and Highway Code, Sections 2104-2106. Most of this funding is calculated by formula based on the number of licensed vehicles and maintained mileage.
 64. SWRCB: State Water Resources Control Board - the regulatory agency responsible for the administration of 1972 Clean Water Act.
 65. TDA: Transportation Development Act
 66. TEA: Transportation Enhancement Activities
 67. TIGER: Transportation Investment Generating Economic Recovery
 68. TIM: Traffic Impact Mitigation. Pertains to the revenue program (in accordance with AB 1600 and California Government Code 66000-66008) to pay for capital projects in “Exhibit B” of the most current Board adopted TIM Fee Resolution
 - Zone 8 TIM: (formerly known as “El Dorado Hills/Salmon Falls Area RIF”) Traffic Impact Mitigation fees to fund road improvements in the El Dorado Hills area (TIM Fee Program Zone 8)
 - Highway 50 TIM: Traffic Impact Mitigation fees collected in all Zones to fund road improvements along the Highway 50 Corridor

- Zones 1-7 TIM: Traffic Impact Mitigation Fees to fund road improvements in the remainder of the county (TIM Fee Program Zones 1-7), excluding El Dorado Hills and Tahoe.
69. TFIP: Transportation Facilities Improvement Program
 70. TMDL: Total Maximum Daily Load
 71. TRPA: Tahoe Regional Planning Agency
 72. USACE: United States Army Corps of Engineers
 73. USBR: United States Bureau of Reclamation
 74. USFS: United States Forest Service
 75. Zones 1-7 TIM: Traffic Impact Mitigation Fees to fund road improvements in the remainder of the county, Zones 1-7, excluding El Dorado Hills and Tahoe
 76. Zone 8 TIM: (formerly known as “El Dorado Hills / Salmon Falls Area RIF”) Traffic Impact Mitigation Fees to fund road improvements in the El Dorado Hills Area, Zone 8
