### Assessment Requirements for All Homes:

- Assessments take between 3 to 5 hours depending on the size of the home.
- If there are any solid fuel-burning appliances, we ask that they not be stoked the night before the day of the assessment. It impedes our testing.
- All rooms must be accessible, including the attic access and the crawlspace, we also ask that all floor registers be accessible.
- Someone over the age of 18 must be present for the whole assessment. The same applies when the work is completed.
- Have the dogs put away so that the workers are not impeded for the work and assessment.
- If it is necessary to replace your HVAC system or water heater, a permit will be pulled, and it will be your responsibility to contact either the state or the building department for the final inspection and forward a copy of the final inspection to the weatherization program.

### Mobile Homes/Manufactured Homes:

Please have registration available, if there is a problem with one of the mechanical appliances, we will need to have this information to replace the appliances. The assessor will need to take a picture of the registration.

The Weatherization program will attempt to contact you no more than three times to schedule the initial assessment appointment. After three attempts and no response, your Weatherization application will be denied.
