Section 4_Framing

- Strategy through the lens of water resource management that is mindful of statewide and national trends
 - Locally-grounded perspective
 - Tangible outcomes to improve conditions of water resources management
 - Integrated considerations that recognize connectivity among management of different resources
 - Collective efforts by the County and its water resource management agencies, weighted more on what may be missing or largely deficient where attention would be warranted

5-year implementation with a long-term view

- Agency-specific and consistent with the following:
 - Roles and responsibilities
 - Principles of engagement
- Specific roles during implementation:
 - Lead (active development-oriented actions)
 - Facilitate (valued-added assistance-oriented actions)
 - Support (coordinated participation-oriented actions)
