Other Attendees-
Stantec: Yung-Hsin Sun, Raymond Hoang, Maritza Flores Marquez
EN2: Tracey Eden-Bishop
Kennedy Jenks- Sachi Itagaki, Jennifer Lau Larsen (phone)

The purpose of the meeting was to review the progress and approach for the West Slope and the Tahoe Basin determination of municipal and industrial (M&I) water demands.

Notes:

- West Slope M&I water demands
 - M&I water demand estimate is based off the 2014 Water Resources Development and Management Plan approach.
 - Great uncertainty in analysis will be from long-term conservation measures.
 - A range of water demands will be generated to serve the Water Resources Development and Management Plan (WRDMP), the American River Basin Study (ARBS), and Alder Reservoir projects that will need to be in compliance with the 2018 Water Conservation and Drought Planning Legislation. Water target will need to be lower than the 20x2020 Water Conservation.
 -
- Lake Tahoe Basin M&I water demands
 - Occupancy and climate change uncertainty will be addressed in a narrative.

Decisions:

- An additional and last Plan Advisory Group meeting will be scheduled for July 24, 2019 from 10:00 am to 1:00 pm.

Action Items:

- **M&I_AG** to review the WRDMP. M&I_AG will be on the lookout for sensitive issues that need to be better addressed.
 - All feedback should be sent to Maritza Flores at Maritza.FloresMarquez@Stantec.com. If anyone would prefer to provide feedback verbally, please contact Maritza at (916) 418-8242 or Yung-Hsin at (916) 418-8260.
 - When providing feedback, please be clear. Please provide feedback using comments in the PDF.
- **EDCWA and Stantec** to prepare for June 2019 PAG Meeting #7. **Due date: 26 June 2019.**
- **EN2** to check and see if there is information available on desired tree canopy.
- **Stantec** to complete the following items:
 - Incorporate feedback from PAG Meeting #6. **Due date: 26 June 2019.**
 - Send out the meeting notes and meeting material. **Due date: 29 May 2019.**

The meeting adjourned at 1:00 PM
