

**El Dorado County Development Services Department  
Building Services**

**POLICY**

*A department policy is based on an interpretation of a code provision  
and is subject to change based on new information.*

**INSPECTIONS ON PERMITS WITH UNAPPROVED PLAN REVISIONS**

In general, if revised plans have been submitted on an active permit but have not yet been approved by the plan review staff, the permit documentations will be removed from the active shelf.

If a plan revision is required, all inspection services will be suspended until the plans are revised approved and all fees paid.

If requested, the revision may be reviewed by the inspection supervisor to only determine if the requested inspection is not impacted by the submitted revision.
